² Interpretation of potential archaeological features on LiDAR imagery is based upon morphological characteristics and reference to known archaeological and historical features within the vicinity. These are preliminary interpretations which are open to refinement following more detailed investigation.

- 2.1.3 As part of the historic map regression exercise detailed in [Appendix 25.2: Onshore historic environment desk study](#) of the ES (Document Reference: 6.4.25.2), certain structures and features were identified within and adjacent to the proposed DCO Order Limits which were not already identified by the HER (shown on [Figure 25.4, Volume 3](#) (Application Document Reference: 6.3.25)). Each feature has been given a unique ID number for ease of reference.

3. Glossary of terms and abbreviations

Table 3-1 Glossary of terms and abbreviations

Term (acronym)	Definition
DCO	Development Consent Order
DCO Application	An application for consent to undertake a Nationally Significant Infrastructure Project made to the Planning Inspectorate who will consider the application and make a recommendation to the Secretary of State, who will decide on whether development consent should be granted for the Proposed Development.
EIA	Environmental Impact Assessment
ES	Environmental Statement
HER	Historic Environment Record
NHLE	National Heritage List for England
LiDAR	An acronym of Light detection and ranging or Lase imaging, detection, and ranging.
Proposed Development	The development that is subject to the application for development consent, as described in Chapter 4: The Proposed Development, Volume 2 of the ES (Document Reference: 6.2.4).
WSCC	West Sussex County Council
