

Submission ID: 25485

Request for an accompanied site inspection given the building of stables, indoor school and fenced fields to be used for grazing on the route plan, location 32/3

Submission ID: 25485

Request for an accompanied site visit to location 32/3 and 32/11 to observe the two places where a private access road (kings lane) will be cut by planned open trenching. The applicant has incorrectly labelled kings lane as a bridle way and footpath where in fact it is a dead end private road which is the only access route for properties on the lane
