The Land Interest owns pasture land which is affected by the proposed Rampion 2 cable route. The Applicant subsequently met with the Land Interest and fellow trustees / landowners in November 2022 (twice), February 2023 and May 2023 to discuss the projects impacts on the land and to discuss the Land Interest's / trustees' intended use / proposed development of the land. This letter also included the Applicant setting out their position on the development proposals presented by the Land Interest and fellow trustees in the May 2023 meeting. Key outstanding concerns remain whether the cable route can be accommodated within any potential future development of the Land Interest's land. Heads of Terms were issued to the Land Interest and the fellow trustees in July 2023. The Applicant's last correspondence with the Land Interest was in November 2023. The Land Interest has pasture land affected by the proposed Rampion 2 cable route, and a proposed Rampion 2 construction access on the southern boundary of their title. A site meeting was initially held in February 2021, followed by subsequent representation letters where the Land Interest expressed concerns about the environmental sensitivities of the proposed cable route. The Land Interest's views were also reiterated within further site meetings in May and July 2021 and various consultation responses. Subsequently, the route was amended to take a route further to the east, away from the aforementioned environmental constraints. The new proposed route was initially presented at a meeting in January 2022 and again in April 2022. The rationale for the route amendment and decision-making process was summarised in a letter dated 19 th July 2022. An additional route amendment was presented by the Land Interest at a site meeting in April 2022 and in formal representations in September and November 2022, as a response to the Applicant's proposed re-route on their land. Washington Land negotiations

Feedback was received from the National Trust agent and representatives in connection with the proposed key terms. Heads of Terms have been subject to ongoing negotiations and discussions and are provisionally agreed subject to necessary sign offs.

The Land in question has been given special power by Parliament to declare land within the ownership of the National Trust as inalienable where it is considered as fit to be held for the benefit of the nation (s21(2) of the National Trust Act 1907). As a consequence, the National Trust is prevented from disposing of the freehold of such land. There is also additional protection when any such land is the subject of potential compulsory acquisition of the land itself or rights over that land.

In the face of an objection to a compulsory purchase order by the National Trust, which has not been withdrawn by the time the confirming authority (the Minister) comes to making a decision on whether to confirm the CPO, the CPO becomes subject to 'special parliamentary procedure' (SPP). The CPO will not come into operation until the SPP process is concluded. The Applicant is engaging constructively to obtain the required rights over the inalienable land voluntarily so as to avoid the SPP process ensuring that any mitigations or benefits are secured.

The land in question was gifted to the National Trust under the will of Mr A B Lloyd in 1942. The land has subsequently been declared inalienable. The majority of the land impacted by the scheme, is within a 99 year farm business tenancy granted to the Lorica Trust in 2004. The remainder of the land is managed in hand by the National Trust's local ranger team.
