

Information to identify the location

Land lying east of Kent Street and South of Cowfold Road RH13 Order Plots: 33/23, 33/24, 33/25, 33/26.

Issues to be observed at the location

Our client firmly believes that a site visit by the Examining Authority is essential. This visit will allow the Examination Authority to visualise the potential negative impact the proposed cable route would have on our client's planted woodland. RED's proposed route completely destroys the woodland planting scheme, which was previously accepted as part of the prestigious Queen's Green Canopy programme launched by the Woodland Trust specifically for the platinum jubilee of the late Queen Elizabeth II consisting of 70 acres.

Our client purposely left a 50-meter strip free of saplings to accommodate RED's scheme, which has been disregarded. A site visit will offer a chance to show the Examining Authority how a revised route can be easily adopted at Kent Street.

Access

15. The Kent Street holding can be easily accessed off Bolney Road. There is an access gate onto our client's holding.

Reason why the location has been suggested

16. The location is central to Order Plots 33/23, 33/24, 33/25, 33/26 providing the best position to demonstrate our client's concern.
