

Submission ID: 25640

Written representation by Carlo Marogna of Constructive Heritage Llp.

My views on how the Rampion 2 DCO Application should be examined re Ecology (Onshore and Offshore).

Pre-Examination Procedural Deadline of 16 January 2024.

Submitted 15 January 2024. IP number 20045425.

I would like this letter to be confirmation of my participation in the Procedural Hearings.

I would like to see in the examination:

(a) Underwater noise esp. impact on marine life

(b) Water quality (offshore) with reference to the kelp forest regeneration and how this project would impact (Biodiversity impacts)

(c) Socio-economic impacts i.e. tourism, recreation, fishing, disruption, etc.

Sincerely,

Carlo Marogna

Constructive Heritage Llp
