

Submission ID: 26344

I would like to add my support and endorse the evidence which has been presented by CowfoldvRampion who act for our community.

I also want to add my support to our parish council in their objections to the proposals which I heard at the meeting I attended on 26th Feb.

I believe this project, if allowed to go ahead, will damage our community and the beautiful countryside in every way possible. This project is simply in the wrong place with Rampion not considering alternatives.
