1. Introduction

The Examining Authority has requested the submission of a Land Rights Tracker in a simple table format. This tracker adopts the example provided by the Examining Authority, with minor amendments to the layout, headings and restricted inputs in certain columns to provide further clarity and functionality making the data more accessible.

Section 3 below explains the purpose and content of each of the columns of this tracker. The row that is titled "Notes to the ExA" explains the function of each column.

2. Description of Rights Requested

The Land Plans (Document Reference 2.1.2) show land and rights over which compulsory acquisition and temporary possession powers are sought and the powers being sought are also listed in the BoR (Document Reference 4.3).

On the Land Plans the plots are coloured to show the type of power that is required over each plot of land to deliver the Project. These same colours

Colour on Land Plans	Type of Acquisition
Pink	Land to be Acquired
Blue	Acquisition of Rights by the Creation of New Rights or the Imposition of Restrictive Covenants
Green	Land to be Used Temporarily
Yellow	Land not subject to Powers of Compulsory Acquisition or Temporary Use

For the avoidance of doubt, land shaded grey on the Land Plans is Land Outside of Land to be Acquired or Used and is there for is not referred to in the Land Rights Tracker.

036	Emily Mulcare-Ball		None Drafted	Not Completed	Not Required	Outstanding	The Applicant has been in regular correspondence with the Land Interest since July 2021.  The Land Interest owns a section of hedgerow which is located within a proposed Rampion 2 temporary construction access / visibility splay.  In addition, the Applicant identified the Land Interest as a presumed owner of part with of the subsoil of the highway, comprising Plot 334 (which is unregistered). A site meeting was initially held in September 2021 where the Land Interest expressed concerns about the proximity of the proposed substation to their dwelling and (which was under construction at the time) and expressed a desire for the alternative substation location (Winstan Lane North) to be selected. In addition, the Land Interest expressed concerns about the cable route affecting their pasture land (which was originally within the design).  The Applicant received an objection to the proposals as a response to the consultation in September 2021.  In July 2022, the Applicant contacted the Land Interest to advise that a substation location had been selected (Dakendene). In August 2023, the Applicant contacted the Land Interest to advise that the cable link between the proposed substation and the grid connection point had been selected, and subsequently, the cable route would no longer affect their land.  The Land Interest submitted a further consultation response in November 2022 reiterating their concerns about the project and the proposed substation location.  The latest correspondence with the Land Interest was in December 2023, when the Applicant provided answers to some of the Land Interest's queries.  It is anticipated that Heads of Terms will be issued in due course.  Key outstanding concerns include construction traffic impacts on the local area around Kent Street, substation design and accommodation works to be discussed in due course.  The Applicant will respond directly to the relevant representation.	12/01/2024 13/03/2024	334, 336	Part 1 (Category 1)	Land to be Used Temporarily (Access)	13. Temporary construction access. 037	Maria Natalie Hacon	Wll McLaren-Clark (The McLaren Clark Consultancy)	Draft Under Discussion	Not Completed	Not Required	Outstanding	The Land Interest attended the public consultation event in Anurid in November 2022.  The Land Interest owns pasture land which is affected by the proposed Rampion 2 cable route.  The Applicant subsequently met with the Land Interest and fellow trustees / landowners in November 2022 (twice), February 2023 and May 2023 to discuss the projects impacts on the land and to discuss the Land Interest's / trustees' intended use / proposed development of the land.  The Applicant undertook a detailed assessment of the route options and presented the reasoning behind the preferred route in a letter to the Land Interest and fellow trustees in May 2023.  A letter was sent to the Land Interest and fellow trustees in May 2023 with the preferred route reasoning and the Applicant's position on development proposals.  This letter also included the Applicant setting out their position on the development proposals presented by the Land Interest and fellow trustees in the May 2023 meeting.  Key outstanding concerns remain whether the cable route can be accommodated within any potential future development of the Land Interest's land.  Heads of Terms were issued to the Land Interest and the fellow trustees in July 2023.  The Applicant's last correspondence with the Land Interest was in November 2023. 039	Henry Adams (Henry Adams) On Behalf Of Susie Claire Fischer (Susie Claire Fischer)	Robert Crawford-Clarke (Henry Adams)	Draft Under Discussion	Not Completed	Not Required	Outstanding	The Applicant has been in regular correspondence with the Land Interest and their agent since February 2021.  The Land Interest has Pasture land affected by the proposed Rampion 2 cable route, and a proposed Rampion 2 construction access on the southern boundary of their site.  A site meeting was initially held in February 2021 site meeting was followed by subsequent representation letters where the Land Interest expressed concerns about the environmental sensitivities of the proposed cable route.  The Land Interest's views were also reiterated within further site meetings in May and July 2021 and various consultation responses. Subsequently, the route was amended to take a route further to the east, away from the aforementioned environmental concerns.  The new proposed route was initially presented at a meeting in January 2022 and again in April 2022. The rationale for the route amendment and decision-making process was incorporated in a Letter Sent 19th July 2022.  An additional route amendment was presented by the Land Interest at a site meeting in April 2022 and in formal representations in September and November 2022, as a response to the Applicant's proposed re-route on their land.  The rationale and decision-making process for not progressing with the additional route amendment to consultation was communicated in a letter dated 17th October 2023.  Heads of Terms were issued in March 2023 and the agent has confirmed in October 2023 that the Land Interest would like to work collaboratively with the Applicant to agree terms.  The Applicant has sought feedback on a number of occasions, the last of which was in December 2023 February 2024. The agent responded to the email in March 2024 and noted that they would not have time to respond until April 2024.  Key outstanding concerns include environmental considerations and issues regarding engagement.	11/01/2024 13/03/2024	2512, 2513, 262, 263, 264, 265, 266, 268, 269, 2610, 2611	Part 1 (Category 1)	Acquisition of Rights by the Creation of New Rights or the Imposition of Restrictive Covenants and Land to be Used Temporarily (Access)	9. 040	James Scott	Robert Crawford-Clarke (Henry Adams)	Draft Under Discussion	Not Completed	Not Required	Outstanding	The Applicant has been in correspondence with the Land Interest and their agent since February 2021.  The Land Interest owns a driveway to their residential property and business (Plot 257, 258 and 259) which is proposed to be used as a Rampion 2 construction and operational access.  The Land Interest is the Managing Director of a Company (Artemis Aerospace - Please see Ref-131) which owns the Freehold Title of paddock land (plot 254) which is affected by the proposed Rampion 2 cable route.  Site meetings were initially held between May and August 2021 and the Land Interest attended a consultation event in July 2021. The Land Interest expressed concerns about the impact on the paddocks, proximity of the proposed route to their dwelling and business, and inclusion of an additional Title of land within the boundary of the cable corridor, which seemed unnecessary. Subsequently, the route was amended to remove the additional Title, and reduce the total area of the paddocks impacted by the cable route proposals.  The new route proposals remove an additional Title and reduce paddock impact (presented at a site meeting in May 2022).  The Land Interest (in conjunction with neighbouring landowners) put forward an alternative route that would bypass their land to the South. The Applicant provided the rationale for why this route had been discounted at the site visit in May 2022.  Heads of Terms were issued in March 2023 in respect of the cable route and December 2023 in respect of the operational access.  The agent has confirmed in October 2023 that the Land Interest would like to work collaboratively with the Applicant to agree terms.  Latest correspondence with the Land Interest was a Letter sent in March 2024 requesting feedback on the Heads of Terms. 027	Henry Adams LLP (Henry Adams LLP) On Behalf Of Meers Hutchings (Meers Hutchings)	Andrew Thomas (Henry Adams LLP)	Draft Under Discussion	Not Completed	Not Required	Outstanding	The Applicant and the Land Interest have been in discussion and a number of discussions about the cable route and the Rampton 2 project requirements between over the period of 2021 to 2024. The Land Interest owns pasture land which is affected by the proposed cable route, areas needed temporarily for cable duct stringing and storage of excavated materials, and a proposed operational access. Pasture land affected by cable route, temporary cable duct stringing, storage of excavated materials and operational access. Option Agreement on land for a second solar farm. The Land Interest's agent has made the Applicant aware of an Option Agreement with a Developer for a second solar farm on the Land Interest's land. The Applicant is willing to work collaboratively with the Land Interest to seek to reach an amicable agreement on accommodating the cables and the solar farm on the land. Discussions between the Applicant and the Land Interest and the Land Interest's agent are ongoing for accommodating the cables and solar farm on the land. The Land Interest's agent has also made the Applicant aware that part of the cable route will pass through a landfill area. The Applicant has given detailed consideration to this, as well as considering minor cable routing amendments in this area. The results of this have been communicated to the Land Interest's agent. The Land Interest's agent has raised a concern in relation to the cable route covering the Land Interest's fields and rendering them redundant (i.e. unable to farm due to access and size of the severed fields). The Applicant has confirmed that access to all parts of the land will be maintained throughout construction. Heads of Terms were issued to the Land Interest in March 2023. The Land Interest's agent has raised a concern relating to the Applicant seeking to plant trees on the Land Interest's land to meet their Biodiversity Net Gain (BNG) requirements. The Applicant is reviewing this and will respond to the Land Interest accordingly. The Applicant's latest correspondence with the Land Interest's agent was in December 2023. The Applicant has had several high level discussions with the Land Interest's agent, since receiving an initial generic response to the Heads of Terms in October 2023. The Applicant had an on-line video (TEAMS) call with the Land Interest's agent on 21st February 2024 whereby the Heads of Terms, the draft Option Agreement and the draft Deed of Escrow were reviewed in detail. The Applicant is awaiting confirmation from the Land Interest that terms have been agreed in principle. The principal outstanding issues relate to whether the DCO Boundary can be refined and whether the proposed cable route can be as far West as possible (within the DCO Boundary).	09/01/2024 21/02/2024	234, 235, 241, 242, 32, 33, 35, 36, 37, 38, 39, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 321, 325, 326, 41, 42, 43, 44, 45	Part 1 (Category 1 and Category 2) and Part 3	Acquisition of Rights by the Creation of New Rights or the Imposition of Restrictive Covenants and Land to be Used Temporarily (Access, Cable duct stringing and Storage of excavated materials)	9. 028	Batchelor Monkhouse (Batchelor Monkhouse) On Behalf Of Murram Farm LLP (Murram Farm LLP)	Heidi Clouting (Batchelor Monkhouse)	Draft Under Discussion	Not Completed	Not Required	Outstanding	The Applicant has been in regular correspondence with the Land Interest and their agent since August 2021. The Land Interest owns arable and pasture land affected by the proposed cable route, and a proposed temporary construction access which partially follows a track and partially follows the edge of a field within their ownership. In addition, there is a proposed operational access which follows along an existing road access to the farm (which also provides the access to other dwellings). Arable and pasture land affected by cable route, temporary construction access and operational access. A site meeting was initially held in August 2021 to discuss the original PIER cable route proposal. Later meetings were held between May and August 2022, following the conception of discussing the Longer Alternative Cable Route ("LACR") and Alternative Access ("AA") affecting their property, where the Land Interest expressed concerns about the direct route of the proposed cable across the farm. The Land Interest was collaborative and worked with the Applicant to agree on a variation of the existing route following site meetings in December 2022 and February 2023, which was put forward for a localised public 28-day consultation in March 2023. Subsequently, the route was amended to take a route further to the West, minimising impact on the farm where possible. The construction route and operational access routes remained within scope. Heads of Terms were issued in July 2023 and the Applicant understands that the Land Interest would like to work collaboratively to agree terms. The latest correspondence was an email to the Land Interest's agent in December 2023 a Letter to the Land Interest and their agent in March 2024 requesting feedback on the Heads of Terms documentation. 045	Knight Frank LLP (Knight Frank LLP) On Behalf Of Oakendene Estate -- Langlands-Pearse And Others (Oakendene Estate -- Langlands-Pearse And Others)	<p>The Applicant and the Land Interest have met on numerous occasions, over a three-year period (2021 to 2024) negotiating terms for an Agreement for Lease for the use of the land for the Rampion 2 Substation Site.</p> <p>The Land Interest owns pasture land that will be affected by the Substation Site, temporary construction access, construction compound, and the proposed cable route.</p> <p>Solicitors have been appointed by both parties and the agreements have been issued for engrossment.</p> <p>During this period discussions have been ongoing between the Applicant and the Land Interest in relation to the Land Interest's wider concerns cited in their relevant representation.</p> <p>The Applicant's last correspondence with the Land Interest was in January 2024.</p>
046	The National Trust (The National Trust)	<p><u>Overview</u></p> <p>Several meetings have been held with the National Trust to discuss acquisition of rights on land under their ownership and land over which they have rights. The Applicant has been in regular correspondence with the National Trust's representatives and their agent since June 2022.</p> <p>The National Trust has two interests affected by the proposed cable route. One being freehold land in Washington (pasture land) and one being a Covenant over Land at Climping (arable land). The National Trust does not own the land at Climping, therefore it is not inalienable. In addition, the interests are affected by a construction access and operational access. There is a proposed construction compound on the Covenant Land. Meetings were held in June 2023 and Heads of Terms issued in July 2023. All parties have confirmed that they will work collaboratively to agree terms.</p> <p><u>Washington Land negotiations</u></p> <p>Feedback was received from the National Trust agent and representatives in connection with the proposed key terms. Heads of Terms have been subject to ongoing negotiations and discussions and are provisionally agreed subject to necessary sign offs. <b>Discussions ongoing associated with rights of access and agreements required to be put on place associated with the access requirements over land occupied by the Lorica Trust.</b></p> <p>The Land in question has been given special power by Parliament to declare land within the ownership of the National Trust as inalienable where it is considered as fit to be held for the benefit of the nation (s21(2) of the National Trust Act 1907). As a consequence, the National Trust is prevented from disposing of the freehold of such land. There is also additional protection when any such land is the subject of potential compulsory acquisition of the land itself or rights over that land.</p> <p>In the face of an objection to a compulsory purchase order by the National Trust, which has not been withdrawn by the time the confirming authority (the Minister) comes to making a decision on whether to confirm the CPO, the CPO becomes subject to 'special parliamentary procedure' (SPP). The CPO will not come into operation until the SPP process is concluded. The Applicant is engaging constructively to obtain the required rights over the inalienable land voluntarily so as to avoid the SPP process ensuring that any mitigations or benefits are secured.</p> <p>The land in question was gifted to the National Trust under the will of Mr A B Lloyd in 1942. The land has subsequently been declared inalienable. The majority of the land impacted by the scheme, is within a 99 year farm business tenancy granted to the Lorica Trust in 2004. The remainder of the land is managed in hand by the National Trust's local ranger team.</p> <p><u>Climping Covenant Land negotiations</u></p> <p>Feedback was received from the National Trust representatives in connection with the proposed key terms. Heads of Terms have been subject to ongoing negotiations and discussions and are provisionally agreed subject to necessary sign offs.</p> <p>The National Trust is the beneficiary of an Existing Covenant that was put in place to protect a specific conservation interest on Land at Climping being the "Normanby Covenant", dated 10th December 1973 between The Most Honourable Grania Maeve Rosaura The Marchioness of Normanby (1) and the National Trust (2)</p> <p>The works required to implement the Development include Works to the Covenanted Land that may be deemed to be in contravention of the Existing Covenant but for the exercise of compulsory acquisition powers. The parties have negotiated terms, subject to internal sign off, that will enable the covenant to be temporarily suspended to the extent necessary to enable the Applicant to implement the Works. The parties have provisionally agreed to adhere to the terms of the agreement to be put in place that will ensure harm caused to the conservation interest by the Development is mitigated.</p>
