You don't often get email from [REDACTED]@hotmail.com. [REDACTED]

To confirm, I have contributed to and endorse the views submitted by CowfoldvRampion on this project.

In particular now it has come to light that there are battery storage farms also proposed in close proximity to Rampion's preferred substation site. All related proposals should be reviewed as part of this examination as the cumulative impact on the landscape would be massive.

Also there continues to be worsening traffic on the A272 with regular accidents - currently weekly occurrence. The road and Cowfold village cannot cope with the current volumes with daily tailbacks at rush hour. None of this would be apparent if you read Rampion's assessment.

My registration identification number is: 20043189.

Kind regards

Natalie Dittmer
