1. Introduction

The Examining Authority has requested the submission of a Land Rights Tracker in a simple table format. This tracker adopts the example provided by the Examining Authority, with minor amendments to the layout, headings and restricted inputs in certain columns to provide further clarity and functionality making the data more accessible.

Section 3 below explains the purpose and content of each of the columns of this tracker. The row that is titled "Notes to the ExA" explains the function of each column.

2. Description of Rights Requested

The Land Plans (Document Reference 2.1.2) show land and rights over which compulsory acquisition and temporary possession powers are sought and the powers being sought are also listed in the BoR (Document Reference 4.3).

On the Land Plans the plots are coloured to show the type of power that is required over each plot of land to deliver the Project. These same colours

Colour on Land Plans	Type of Acquisition
Pink	Land to be Acquired
Blue	Acquisition of Rights by the Creation of New Rights or the Imposition of Restrictive Covenants
Green	Land to be Used Temporarily
Yellow	Land not subject to Powers of Compulsory Acquisition or Temporary Use

For the avoidance of doubt, land shaded grey on the Land Plans is Land Outside of Land to be Acquired or Used and is there for is not referred to in the Land Rights Tracker.

3. Explanation of Tracker Headings

The Land Interest owns a driveway to their residential property and business proposed to be used as a construction and operational access. There are proposed Rampion 2 operational and construction accesses that also intersect with the Land Interest.</p> <p>An initial on-line meeting was held in October 2020, and the Land Interest responded to both the 2021 and 2022 consultations.</p> <p>The Applicant understands that the Land Interest would like to work collaboratively to agree terms. It is anticipated that an agreement will be taken forward with the Land Interest's Property department. 039	Henry Adams (Henry Adams) On Behalf Of Susie Clare Fischel (Susie Clare Fischel)	<p>The Applicant has been in regular correspondence with the Land Interest and their agent since February 2021.</p> <p>The Land Interest has pasture land affected by the proposed Rampion 2 cable route, and a proposed Rampion 2 construction access on the southern boundary of their title.</p> <p>A site meeting was initially held in February 2021, followed by subsequent representation letters where the Land Interest expressed concerns about the environmental sensitivities of the proposed cable route. The Land Interest's views were also reiterated within further site meetings in May and July 2021 and various consultation responses. Subsequently, the route was amended to take a route further to the east, away from the aforementioned environmental constraints. The new proposed route was initially presented at a meeting in January 2022 and again in April 2022. The rationale for the route amendment and decision-making process was summarised in a letter dated 19th July 2022.</p> <p>An additional route amendment was presented by the Land Interest at a site meeting in April 2022 and in formal representations in September and November 2022, as a response to the Applicant's proposed re-route on their land. The rationale and decision-making process for not progressing with the additional route amendment to consultation was communicated in a letter dated 17th October 2023.</p> <p>Heads of Terms were issued in March 2023 and the agent confirmed in October 2023 that the Land Interest would like to work collaboratively with the Applicant to agree terms. The Applicant has sought feedback on a number of occasions, including in February 2024. The agent responded to the email in March 2024 and noted that they would not have time to respond until April 2024.</p> <p>Key outstanding concerns include environmental considerations and issues regarding engagement.</p> <p>The Applicant's latest correspondence was an email to the land interest providing clarification regarding the Works areas impacting the land holding in May 2024.</p>
040	James Scott	<p>The Applicant has been in correspondence with the Land Interest and their agent since February 2021.</p> <p>The Land Interest owns a driveway to their residential property and business (Plot 25/7, 25/8 and 25/9) which is proposed to be used as a Rampion 2 construction and operational access.</p> <p>The Land Interest is the Managing Director of a Company which owns the Freehold Title of paddock land (plot 25/6) which is affected by the proposed Rampion 2 cable route.</p> <p>Site meetings were initially held between May and August 2021 and the Land Interest attended a consultation event in July 2021. The Land Interest expressed concerns about the impact on the paddocks, proximity of the proposals to their dwelling and business, and inclusion of an additional Title of theirs within the boundary of the cable corridor, which seemed unnecessary. Subsequently, the route was amended to remove the additional Title, and reduce the total area of the paddocks impacted by the cable route proposals. The new proposals were presented at a site meeting in May 2022.</p> <p>The Land Interest (in conjunction with neighbouring landowners) put forward an alternative route that would bypass their land to the South. The Applicant provided the rationale for why this route had been discounted at the site visit in May 2022.</p> <p>Heads of Terms were issued in March 2023 in respect of the cable route and December 2023 in respect of the operational access. The agent confirmed in October 2023 that the Land Interest would like to work collaboratively with the Applicant to agree terms. 045	Knight Frank LLP (Knight Frank LLP) On Behalf Of Oakendene Estate -- Langlands-Pearse And Others (Oakendene Estate -- Langlands-Pearse And Others)	<p>The Applicant and the Land Interest have met on numerous occasions, over a three-year period (2021 to 2024) negotiating terms for an Agreement for Lease for the use of the land for the Rampion 2 Substation Site.</p> <p>The Land Interest owns pasture land that will be affected by the Substation Site, temporary construction access, construction compound, and the proposed cable route.</p> <p>Solicitors have been appointed by both parties and the agreements have been issued for engrossment.</p> <p>During this period discussions have been ongoing between the Applicant and the Land Interest in relation to the Land Interest's wider concerns cited in their relevant representation.</p> <p>The Applicant's last correspondence with the Land Interest was in January 2024.</p>
046	The National Trust (The National Trust)	<p>Overview</p> <p>Several meetings have been held with the National Trust to discuss acquisition of rights on land under their ownership and land over which they have rights. The Applicant has been in regular correspondence with the National Trust's representatives and their agent since June 2022.</p> <p>The National Trust has two interests affected by the proposed cable route. One being freehold land in Washington (pasture land) and one being a Covenant over Land at Climping (arable land). The National Trust does not own the land at Climping, therefore it is not inalienable. In addition, the interests are affected by a construction access and operational access. There is a proposed construction compound on the Covenant Land. Meetings were held in June 2023 and Heads of Terms issued in July 2023. All parties have confirmed that they will work collaboratively to agree terms.</p> <p>Washington Land negotiations</p> <p>Feedback was received from the National Trust agent and representatives in connection with the proposed key terms. Heads of Terms have been subject to ongoing negotiations and discussions and are provisionally agreed subject to necessary sign offs. Discussions ongoing associated with rights of access and agreements required to be put on place associated with the access requirements over land occupied by the Lorica Trust. The Applicant's solicitor has been instructed to prepare draft voluntary agreement documentation. Key commercial terms have been agreed with the Lorica Trust, the National Trust's long term tenant occupying the land to be used for a construction access.</p> <p>The Land in question has been given special power by Parliament to declare land within the ownership of the National Trust as inalienable where it is considered as fit to be held for the benefit of the nation (s21(2) of the National Trust Act 1907). As a consequence, the National Trust is prevented from disposing of the freehold of such land. There is also additional protection when any such land is the subject of potential compulsory acquisition of the land itself or rights over that land.</p> <p>In the face of an objection to a compulsory purchase order by the National Trust, which has not been withdrawn by the time the confirming authority (the Minister) comes to making a decision on whether to confirm the CPO, the CPO becomes subject to 'special parliamentary procedure' (SPP). The CPO will not come into operation until the SPP process is concluded. The Applicant is engaging constructively to obtain the required rights over the inalienable land voluntarily so as to avoid the SPP process ensuring that any mitigations or benefits are secured.</p> <p>The land in question was gifted to the National Trust under the will of Mr A B Lloyd in 1942. The land has subsequently been declared inalienable. The majority of the land impacted by the scheme, is within a 99 year farm business tenancy granted to the Lorica Trust in 2004. The remainder of the land is managed in hand by the National Trust's local ranger team.</p>

		<p>Climping Covenant Land negotiations</p> <p>Feedback was received from the National Trust representatives in connection with the proposed key terms. Heads of Terms have been subject to ongoing negotiations and discussions and are provisionally agreed subject to necessary sign offs.</p> <p>The National Trust is the beneficiary of an Existing Covenant that was put in place to protect a specific conservation interest on Land at Climping being the "Normanby Covenant", dated 10th December 1973 between The Most Honourable Grania Maeve Rosaura The Marchioness of Normanby (1) and the National Trust (2)</p> <p>The works required to implement the Development include Works to the Covenanted Land that may be deemed to be in contravention of the Existing Covenant but for the exercise of compulsory acquisition powers. The parties have negotiated terms, subject to internal sign off, that will enable the covenant to be temporarily suspended to the extent necessary to enable the Applicant to implement the Works. The parties have provisionally agreed to adhere to the terms of the agreement to be put in place that will ensure harm caused to the conservation interest by the Development is mitigated.</p>

The Land Interest was originally affected by both the cable route and the construction access, but following consultation and subsequent route amendments, there is now not cable route associated with this Land Interest.</p> <p>The Applicant was made aware that the occupier operates a 200-cow dairy herd and that access to the milking parlour through the farmstead was critical.</p> <p>The Applicant gave detailed consideration to this which resulted in the cable route being altered (and a route selected off the Land Interest's land) and a temporary construction access route only being required. The temporary construction access route follows the boundary of the farm / field which mitigates the level of impact on the dairy farm. 058	Climping Homes (Climping Homes)	<p>The Applicant consulted with the Land Interest in October 2022, and in April 2023 as part of Highways Consultation. Following this, the Land Interest approached the Applicant in October 2023, to gain an understanding of the project and the potential impact on their land.</p> <p>Plots 2/19 & 2/20 are included within the DCO boundary for proposed temporary construction access.</p> <p>The Land Interest has obtained outline planning consent for a 300-dwelling residential development on their land. As part of the development the Land Interest proposes to alter Church Lane and install a new roundabout onto the A259. The main entrance to the Land Interest's proposed development would be off Church Lane in close proximity to the Applicant's proposed access into the Climping construction Compound.</p> <p>In a meeting between the Applicant and the Land Interest in November 2023, the Land Interest's principal concern was the potential impact the construction compound will have upon the saleability (i.e. ability to sell and value of) when the new houses are completed and ready to be sold. The Land Interest was also concerned about how the two construction projects (access points) may interact.</p> <p>Heads of Terms were issued to the Land Interest in December 2023.</p> <p>The Land Interest has confirmed they are willing to work collaboratively with the Applicant towards reaching a voluntary agreement.</p> <p>The Applicant's last correspondence with the Land Interest was in January 2024.</p> <p>The Applicant had an on-line video (TEAMS) call with the Land Interest's agent, on 4th March 2024, whereby Heads of Terms were reviewed in detail. The Land Interest sought to have the proposed ACR moved as far to the South of his land as was possible. The Applicant has provided the Land Interest's agent with the rationale behind the cable route positioning through the Land Interest's land.</p> <p>Heads of Terms were issued to the Land Interest in April 2023.</p> <p>The Land Interest's agent has raised concerns with the wording of the draft Easement document in relation to the restrictions being sought to be imposed over the easement strip. The principal outstanding issues are the Land Interest's agent's position on long-term "hope" development value for the land and not accepting the Applicant's easement consideration amount, and the positioning of the proposed cable route through the middle of the land holding potentially sterilising the whole of the land holding, will prevent the land from being developed.</p> <p>The Applicant wrote to the Land Interest in March 2024. The Applicant has had a subsequent telephone conversation with the Land Interest's agent and has established that the Land Interest strongly opposes the cable route's current route which severs the arable fields in half. The Land Interest has long-term development aspirations for the land and is unhappy with the Applicant's current offer.
