9th July 2024

Dear Mr Allen,

Planning Act 2008 (as amended) and The Infrastructure Planning (Examination Procedure) Rules 2010 (as amended)

**Application by Rampion Extension Development Limited for an Order Granting Development Consent for the Rampion 2 Offshore Wind Farm
PINs Ref: EN010117**

DEADLINE 5 SUBMISSION – In response to The Examining Authority’s Further Written Questions and requests for information.

Historic England registration identification number: 20045343

We offer comment here in regard to the ExA’s further written questions and requests for information:

1. Examining Authority’s (ExA) Consultation Draft Development Consent Order – schedule of changes: Question DCO 2.4 We support the amendments introduced by the Examination Authority to the draft Development Consent Order.
2. However, within the draft Deemed Marine Licence we draw the Examination Authorities attention to the importance of this amendment to Schedule 12 (Transmission Assets), Condition 11(2) to include West Sussex County Council as it is possible that works could occur within the intertidal area and therefore its drafting should be subject to advice from the county archaeological advice service.

I hope this advice is helpful to your decision-making and urge you to take these matters into consideration as part of the examination process.

Yours sincerely,

Rebecca Lambert (Inspector of Ancient Monuments, London & South East Region,
Historic England)

cc. Co-author Dr Christopher Pater, Head of Marine Planning
