Article/Requirement/Schedule	Amendment	Reason
Schedules		
Schedule 7 – Cable Rights	In row 5, line 28 of column (1) of the table to delete “34/31”	A narrowed extent of Work No. 19 is proposed in the area to the west of the existing substation, which means that Plot 34/31 is now required for Work no. 13 (construction access) and requires temporary possession powers only.
Schedule 7 – Cable Restrictive Covenants	In row 6, line 28 of column (1) of the table to delete “34/31”	A narrowed extent of Work No. 19 is proposed in the area to the west of the existing substation, which means that Plot 34/31 is now required for Work no. 13 (construction access) and requires temporary possession powers only.
Schedule 7 – Cable Restrictive Covenants	In row 6, line 29 of column (1) of the table to adjust the placement of “34/21” to follow a numerical order	This is to correct the numerical order of the plots within this package.

<b>Article/Requirement/Schedule</b>	<b>Amendment</b>	<b>Reason</b>
Schedule 7 - Cable Restrictive Covenants	In row 6, line 29 of column (1) of the table to delete "34/31"	This was a drafting error which duplicated Plot 34/31 by mistake.
Schedule 7 - Cable Restrictive Covenants	In row 6, line 29 of column (1) of the table to insert "34/23".	This is to correct a drafting error. The duplicated plot 34/31 entry should have been a reference to plot 34/23, which is shown coloured blue on the Land Plans and over which Cable Rights and Cable Restrictive Covenants are required.
Schedule 7 - Operational Access Rights	In row 7, line 20 of column (1) of the table to insert "34/40".	A reduced package of permanent rights for an operational access are required on Plot 34/40, which was previously part of Plot 34/25 and subject to the more extensive Cable Rights and Cable Restrictive Covenants packages.
Schedule 7 - Construction and Operational Access Rights	In row 8, line 3 of column (1) of the table to insert "7/36".	This parcel originally formed part of Plot 7/1 over which Cable Rights and Cable Restrictive Covenants are sought. The newly re-numbered parcel is now required only for work no. 14 for which Construction and Operational Access Rights are sought. These amendments are made to minimise environmental impacts and in response to the ExA's Second Written Questions TE-2.21e.
