Dear Sir / Madam

**RAMPION 2 OFFSHORE WIND FARM  
INTERESTED PARTY REFERENCE NUMBER: 20043512**

We write in advance of the final deadline and end of the Examination period of the above proposed application for a Development Consent Order (“the DCO”).

As set out in our previous letter, we have been negotiating with the Applicant on protective provisions in respect of the interface between our apparatus and the DCO application. Discussions with the Applicant are progressing positively and are advanced, but the parties are not yet agreed. Accordingly, Southern Water needs to maintain its objection to the DCO application.

Southern Water is working hard to try and reach agreement before the end of Examination, but if that is not possible it intends to continue discussions with the Applicant and is confident that agreement can be reached by the end of the recommendation period. Southern Water will update the Secretary of State if the status of its objection changes.

Please do not hesitate to let us know should you have any questions on the above.

Yours sincerely

Southern Water Services Limited
