Dear Case Team,

Application by Rampion Extension Development Ltd for a new offshore windfarm with up to 90 wind turbine generators, offshore and onshore substations and electricity transmission infrastructure

Deadline 6 Submission

Rampion Extension Development Ltd (RED) ('the Applicant') writes in response to the Examining Authority's (ExA) letter **[PD-007]** issued under The Infrastructure Planning (Examination Procedure) Rules 2010, Rule 8.

Responses to Deadline 5 Submissions

The Applicant has taken the opportunity to review each submission received into the Examination at Deadline 5. The Applicant has focussed on responding to submissions made at Deadline 5 only where it will be helpful to the Examining Authority to do so. The **Applicant's Responses to Deadline 5 Submissions (Document reference 8.98)** therefore focusses on comments that have not already been made by Interested Parties and responded to by the Applicant.

Applicant's Responses to Examining Authority's Second Written Questions (ExQ2) Rev A [REP5-119].

The Applicant would like to highlight an error made in the **Applicant's Responses to Examining Authority's Second Written Questions (ExQ2) Rev A [REP5-119]**, reference TE 2.10, section D, a) page 51. The text currently reads:

The Applicant notes that the linear treegroup feature G630 ends where a wooden pole overhead line ensures that there is a small break in

vegetation as regular management occurs in this location. After a brief break for the overhead line trees continue along the roadside beyond access A-40 (which is on the opposite side of the A283). Therefore, even if access A-39 was moved eastwards tree loss would be inevitable as the location with the overhead line would need to be avoided. Moving to the east of the overhead line would require losses of more semi-natural habitat than currently proposed including additional grassland and scrub. Additionally, required junction design further east along the A283 could encroach towards the scarp of Rock Common Quarry and therefore present ground stability concerns.

This text should be amended to:

The Applicant notes that the linear treegroup feature G630 ends where a wooden pole overhead line ensures that there is a small break in vegetation as regular management occurs in this location. After a brief break for the overhead line trees continue along the roadside beyond access A-40 (which is on the opposite side of the A283). ~~Therefore, even if access A-39 was~~ As confirmed in **Table 1-1** of the **Technical Note Construction Access Update Assessment Summary [REP3-055]**, A-39 has moved 95m eastwards to minimise vegetation loss. Note additional traffic management, such as the temporary speed limit reduction, is to minimise vegetation losses as far as possible by reducing swept path and visibility splay requirements. ~~tree loss would be inevitable as the location with the overhead line would need to be avoided. Moving to the east of the overhead line would require losses of more semi-natural habitat than currently proposed including additional grassland and scrub. Additionally, required junction design further east along the A283 could encroach towards the scarp of Rock Common Quarry and therefore present ground stability concerns.~~

Documents Enclosed

In accordance with the Examining Authority's requirements in the Rule 8 letter **[PD-007]** the Applicant encloses the documents listed in Table 1 below. In addition to the documents required in the Rule 8 Letter, the additional documents identified in Table 2 below are also submitted to the Examination by the Applicant.

Statements of Common Ground

At Deadline 5 the Applicant submits a number of final Statements of Common Ground that have been signed by both parties. A number of the other parties would like to review the Applicant's Deadline 5 submissions prior to finalising their Statements of Common Ground. These will be signed post Deadline 5.

Table 3 below provides a summary of the status of each Statement of Common Ground submitted at Deadline 5.

Table 3 – Status of Statements of Common Ground

Document Reference	Other Party to the Statement of Common Ground	Status
8.1	Arun District Council	Final Version Signed 08/07/24 – submitted at Deadline 5.
8.2	Horsham District Council	Sixth Draft submitted at Deadline 5. Further draft to be submitted at Deadline 6.
8.3	Mid Sussex District Council	Final Version Signed 08/07/24 – submitted at Deadline 5.
8.4	South Downs National Park Authority	Sixth Draft submitted at Deadline 5. Further draft to be submitted at Deadline 6.
8.5	West Sussex County Council	Eighth Draft submitted for Deadline 5. Further draft to be submitted at Deadline 6.
8.6	Environment Agency	Final Version Signed 03/06/24 – submitted at Deadline 5.
8.7	Historic England	Final Version Signed 09/07/24 – submitted at Deadline 5.
8.8	Natural England	Fifth Draft submitted at Deadline 5. Further draft to be submitted at Deadline 6.
8.9	National Highways	Fourth Draft submitted at Deadline 5. Further draft to be submitted at Deadline 6.
8.10	Civil Aviation Authority	First Draft issued, no response from stakeholder. See Appendix A of Statement of Commonality for Statements of Common Ground (Document Reference 8.21) submission at Deadline 5.

Document Reference	Other Party to the Statement of Common Ground	Status
8.11	Shoreham Airport	Final Version Signed 05/07/24 – submitted at Deadline 5.
8.12	Marine Management Organisation	Fifth draft submitted at Deadline 5. Further draft to be submitted at Deadline 6.
8.13	Maritime and Coastguard Agency	Fourth Draft submitted at Deadline 5. Further draft to be submitted at Deadline 6.
8.14	Trinity House	Final Version Signed 08/07/24 – submitted at Deadline 5.
8.15	UK Chamber of Shipping	Final Version Signed 07/07/24 - submitted at Deadline 5.
