Indicative locations of the onshore elements of the Proposed Development

- Construction site compound: dashed line indicates maximum horizontal and vertical extent of area for concrete batching plant which will be up to 20m in height anywhere within this area
- Indicative, maximum horizontal extent of substation security fence
- Indicative, maximum vertical and horizontal extent of substation buildings (Variable Height)
- Indicative, maximum vertical and horizontal extent of substation busbars (12m)
- Indicative, maximum vertical extent of lightning rod (18m)

| Paper size:                 | 841mm x 297mm (1/2 A1)       | Camera height: | 1.5m AGL                   |
| Correct printed image size: | 820 x 250mm                  | Date and time: | 15/12/2020 10:15           |

- Indicative locations of the onshore elements of the Proposed Development
- Indicative 40m wide cable corridor visible during construction
  - - - - - Indicative 40m wide cable corridor not visible during construction
  - - - - - Indicative trenchless section of cable corridor (no construction works would be visible)
  - - - - - Alternative indicative trenchless crossing, construction compound (not visible)
  - Alternative indicative trenchless crossing, construction compound

Note: Figure produced to accord with the Landscape Institute's Technical Guidance Note 6/19: Visual Representation of Development Proposals.
