Dear Sir / Madam,

Our unique ref: 20031566

In regards to your pending visit on Tuesday 6th December 2022, we would have liked to have attended this event as we feel that we would be one of the property's that will be severely effect should the planning be approved to build a solar farm in the fields adjacent to our property. Due to unforeseen circumstance my wife and I will be abroad on the day in question dealing with an urgent family matter and will not have the opportunity to show you how this development will engulf our family home, however we are willing to arrange for my father in-law to be there and allow you access to our home for you to see the impact this development, that will not only devalue our property which we have worked so hard for over many years but to see the vast emotional and mental strain this project will have on the whole of our family.

If you find this offer acceptable can you please ensure that the minimum number of people required to review our situation enter our home as my father in-law is elderly [REDACTED] so to many people may be an ordeal for him. By allowing you access in this way I hope you see how desperate we are as a family for you to see and understand the deep impact this project will have on us all.

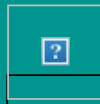

If you could please confirm you intentions so arrangements can be made.

Kind Regards

Mr & Mrs Harvey
