Dear Mr Harrold,

PINS Reference: EN010120

Document Reference: 8.2.9 Cover Letter (10) – Submission of Updated Documents Pursuant to the Proposed Changes Application

The Planning Act 2008, and the Infrastructure Planning (Compulsory Acquisition) Regulations 2010 ('the CA Regulations')

Drax Power Station Bioenergy with Carbon Capture and Storage

1. We write on behalf of Drax Power Limited ('the Applicant') with reference to the Proposed Changes Application submitted by the Applicant on 5 December 2022. The submitted Proposed Changes Application Report (AS-045) sets out the full scope of the proposed changes and the assessment thereof.
2. The Proposed Changes were accepted into the Examination in a letter dated 13 December 2022 ('the Letter').
3. The Applicant is now formally submitting updated Application documents as requested by the Examining Authority ('the ExA') in the Letter:
 - full copies of all documents submitted for consideration as part of the Proposed Changes Application (tracked change and clean versions);
 - consolidated updates of the Book of Reference, Statement of Reasons, Funding Statement and Land Plans as a result of PC-01 and PC-02 (tracked change and clean versions); and

- a separate set of Crown Land Plans (in addition to the Land Plans).
- The Applicant is also submitting the documents noted by the Proposed Changes Application Report as being changed as a consequence of the Proposed Changes (being the REAC, FRA, OCTMP and OLBS).
 - Accordingly, the following documents are enclosed with this submission:

Application Document Reference	PINS Document Reference (Most up to date submitted version)	Document Details	Date
1.4	AS-024	Application Tracker To account for the suite of documents being submitted, including updated revision numbers and additional documents	December 2022
1.7	APP-007	Glossary (Clean) Updated to include terms associated with the Proposed Changes	December 2022
1.7	APP-007	Glossary (Tracked) Updated to include terms associated with the Proposed Changes	December 2022
2.1	APP-008	Site Location Plan Updated to reflect the acceptance of the Proposed Changes.	December 2022
2.2	APP-009 (Supplemented by AS-058)	Land Plans Updated with the revised Order Limits and accounting for the comments of the ExA in its Procedural Decision accepting the Proposed Changes.	December 2022
2.3	OD-005 (Supplemented by AS-059)	Works Plans Updated to reflect the acceptance of the Proposed Changes.	December 2022

		<p>The Applicant has noted the following query in the Letter:</p> <p><i>Should centre lines be shown for Work No. 8 on the Works Plans given it relates to overhead lines?</i></p> <p>The Applicant response is that the overhead lines for Work No. 8 are not shown on the OS Master Mapping, which is considered likely due to these being low voltage. Inclusion of the overhead lines would therefore need to be undertaken manually by hand which is considered inappropriate for statutory plans. Additionally, the Works involve a combination of removing parts of a line; restringing and moving existing poles and lines; and undergrounding parts of a line within that area, so there is not one 'centre line' to be applied within the Works areas.</p>
