**Subject:** RE: Drax BECCS - Applicant's proposed provision notice - Response required by 24 February

Dear George

Please accept this email as confirmation that North Yorkshire County Council does not require the Applicant to provide NYCC with a further formal notice of the proposed provision set out below.

The Authorities have been in constant contact with the Applicant and have been made aware of the changes to the application. Furthermore, Selby District Council have received formal notice and the two Authorities are responding to this application jointly. NYCC have not made a relevant representation on this topic area and consider that we have had sufficient notice to make should have wished to do so. NYCC do not wish to submit a representation on this point.

I hope this is sufficient for your purposes.

Many thanks  
Michael
