Table 2-1 – Schedule of Negotiations and Powers Sought – Land Interests	4
Table 2-2 – Schedule of Negotiations and Powers Sought – Statutory Undertakers	28

1. INTRODUCTION

- 1.1.1. The Schedule of Negotiations and Powers Sought document (application Document Ref. 4.1.1) has been prepared on behalf of Drax Power Limited (the 'Applicant'), to sit alongside the document reference 4.1 - Statement of Reasons. The Statement of Reasons explains why it is necessary, proportionate and justifiable for the Application to seek powers of compulsory acquisition, and why there is a compelling case in the public interest for the Applicant to be granted these powers.
- 1.1.2. This document previously formed Appendix 1 to the Statement of Reasons, but is provided as a separate document which will be updated during the Examination to track progress in negotiations undertaken.
- 1.1.3. This document provides a summary of the position in relation to the negotiations undertaken to date with affected land interests and statutory undertakers. The Applicant's updates are provided in Chapter 2 of this document.

2. SCHEDULE OF NEGOTIATIONS AND POWERS SOUGHT

2.1. INTRODUCTION

- 2.1.1. This chapter provides the Applicant's update on the position regarding negotiations with affected owners, occupiers and others, set out in **Table 2-1**, and with statutory undertakers in **Table 2-2**, below.
- 2.1.2. The information provided below sets out the position at the time of writing, and will be updated throughout the Examination, as appropriate.
- 2.1.3. The Tables set out the following for each affected party:
 - a. Name of the party;
 - b. Plot Numbers (from the Book of Reference (Document 4.3));
 - c. Category of Interest (identifying the nature of the affected party's interest with reference to the categories in section 44 of the Planning Act 2008);
 - d. Work Numbers (identifying the purpose for which the plots are sought by reference to the Work Numbers in Schedule 1 of the DCO);
 - e. Reason for acquisition or possession; and
 - f. Negotiations (summary of contact with party and progress made).
- 2.1.4. Please note that **Table 2-1** of this Schedule does not include entries for the parties listed below or the Applicant's own interests. These parties all provide some form of service to, or are a customer of Drax at the Existing Power Station and have service agreements or similar arrangements with Drax. As this involves some form of occupancy of land, there is the potential for there to be a landlord and tenant arrangement between the Applicant and the company. As such, each company has been identified as having a Category 1 interest as a precaution (and will be subject to Works 1-4). The Applicant does not seek powers to acquire land or new rights with respect to this interest. Powers sought relate only to extinguishing existing rights which would interfere with the construction and operation of the Proposed Scheme. The Applicant will be managing the interface with these parties through the existing contractual arrangements between the parties.

Table 2-2 – Schedule of Negotiations and Powers Sought – Statutory Undertakers

Statutory Undertaker Name	Plot Numbers	Nature of the Undertaking	Relevant Rights to be Extinguished; and / or the Relevant Apparatus to be Removed	Whether the Tests in s 127 & s138 can be met	Status of any Protective Provisions and / or Commercial Agreements	Settlement Reached	Representation(s) Withdrawn in Whole or Part
British Telecommunications plc (Openreach)	01-74, 01- 78, 01-80, 01-86, 01- 90, 01-92, 01-93, 01- 100, 01- 111, 01- 114, 01- 116, 01-118	Telecommunications	Rights to be extinguished and relevant apparatus to be moved. Diversionary works required at various locations across Scheme, subject to detailed design. Principle of diversions to be agreed through C3 design and costing process.	Article 28 of the draft DCO gives the undertaker certain powers in relation to compulsory acquisition and acquisition of rights in statutory undertakers within the Order Land (defined in the dDCO to include public communications providers). That article is subject to the protective provisions included at Schedule 12 of the draft DCO. Part 2 of Schedule 12 of the draft DCO includes provisions for the protection of operators of electronic communications code networks. The Applicant's position is that these provisions provide adequate protection for British Telecommunications plc's assets. Accordingly, the Applicant considers that British Telecommunications plc (Openreach) will not suffer serious detriment to the carrying on of its undertaking, and the tests set out in section 138 of the PA 2008 are therefore satisfied. (British Telecommunications plc (Openreach) is not a statutory	Requests for Information (RFIs) in order to confirm their interests within the land alongside consent forms relating to the works required to divert the existing overhead electrical and telecommunications lines were issued in September 2022. Drax Power Limited has been in discussions with BT Openreach since Autumn 2022 regarding their assets and the proposed works required to facilitate the delivery of abnormal indivisible loads to the site including diversion of existing telecommunications overhead line. The Applicant has requested and obtained a design and cost estimate for necessary works to the Openreach telecommunications lines (TCL1) and is in discussions regarding the detail of the works.	No	No representation received

Statutory Undertaker Name	Plot Numbers	Nature of the Undertaking	Relevant Rights to be Extinguished; and / or the Relevant Apparatus to be Removed	Whether the Tests in s 127 & s138 can be met	Status of any Protective Provisions and / or Commercial Agreements	Settlement Reached	Representation(s) Withdrawn in Whole or Part
				undertaker for the purposes of section 127)	The Applicant will continue to progress discussions with Openreach to identify the scope and extent of works necessary to facilitate the delivery of abnormal indivisible loads to the site. Once the scope and extent of works are identified, the Applicant will continue negotiations with other parties affected by these works.		
euNetworks Fiber UK Limited	01-103, 01- 111, 01- 112, 01- 114, 01-116	Telecommunications	TBC	Article 28 of the draft DCO gives the undertaker certain powers in relation to compulsory acquisition and acquisition of rights in statutory undertakers within the Order Land (defined in the dDCO to include public communications providers). That article is subject to the protective provisions included at Schedule 12 of the draft DCO. Part 2 of Schedule 12 of the draft DCO includes provisions for the protection of operators of electronic communications code networks. The Applicant's position is that these provisions provide adequate protection for euNetworks Fiber UK Limited's assets. Accordingly, the Applicant considers that euNetworks Fiber UK Limited will not suffer serious detriment to the carrying on of its undertaking, and the	Drax Power Limited have been in discussion with euNetworks Fiber UK Limited's asset team since Autumn 2022 regarding the proposed works to facilitate the delivery of abnormal indivisible loads to the site including diversion of existing overhead telecommunications lines. Discussions between the Applicant and the interest confirmed that the overhead line at TCL1 was not one of EU Fiber Networks' assets, The Applicant is progressing negotiations with BT Openreach on the works for TCL1, and with Northern Powergrid for OHL1 and OHL2, and will progress discussions with EU Fiber Network once the scope and	No	

Statutory Undertaker Name	Plot Numbers	Nature of the Undertaking	Relevant Rights to be Extinguished; and / or the Relevant Apparatus to be Removed	Whether the Tests in s 127 & s138 can be met	Status of any Protective Provisions and / or Commercial Agreements	Settlement Reached	Representation(s) Withdrawn in Whole or Part
				tests set out in section 138 of the PA 2008 are therefore satisfied. (euNetworks Fiber UK Limited is not a statutory undertaker for the purposes of section 127)	extent of necessary works are confirmed.		
National Grid Carbon Limited	01-32	Gas distribution	Rights to be extinguished and relevant apparatus to be moved. Diversionary works required at various locations across Scheme, subject to detailed design. Principle of diversions to be agreed through C3 design and costing process.	Article 28 of the draft DCO gives the undertaker certain powers in relation to compulsory acquisition and acquisition of rights in statutory undertakers within the Order Land. That article is subject to the protective provisions included at Schedule 12 of the draft DCO. The Applicant is currently negotiating bespoke protective provisions with National Grid Carbon Limited, which will be included in Schedule 12 of the draft DCO. The Applicant's position is that these provisions will provide adequate protection for National Grid Carbon Limited's assets. Accordingly, the Applicant considers that National Grid Carbon Limited will not suffer serious detriment to the carrying on of its undertaking, and the tests set out in sections 127(3), 127(6) and 138 of the PA 2008 are therefore satisfied.	Drax Power Limited has been in correspondence with the land interest since September 2021. Drax Power Limited sent correspondence to National Grid Carbon Limited on 24 March 2022 to seek their confirmation of whether they would prefer to provide their own protective provisions for inclusion in the draft DCO or if Drax Power Limited's legal team would be drafting bespoke provisions. Drax Power Limited subsequently received a set of protective provisions from National Grid Carbon Limited shortly before submission of the Application. The Applicant has considered these and provided comments to National Grid Carbon Limited. The parties are in discussions with the intention being to include an agreed set of protective provisions in a	No	Ongoing negotiations

Statutory Undertaker Name	Plot Numbers	Nature of the Undertaking	Relevant Rights to be Extinguished; and / or the Relevant Apparatus to be Removed	Whether the Tests in s 127 & s138 can be met	Status of any Protective Provisions and / or Commercial Agreements	Settlement Reached	Representation(s) Withdrawn in Whole or Part
					future draft of the DCO. Parties anticipate reaching agreement during the course of the Examination.		
					The Applicant has received draft protective provisions from National Grid Carbon Limited, which it has commented on. Those comments are being considered by National Grid Carbon Limited currently. It is expected agreement will be reached during the course of the Examination.		
National Grid Electricity Transmission plc	01-10, 01- 16, 01-19, 01-27, 01- 31, 01-32, 01-37, 01- 84	Electricity transmission	Rights to be extinguished and relevant apparatus to be moved. Diversionary works required at various locations across Scheme, subject to detailed design. Principle of diversions to be agreed through C3 design and costing process.	Article 28 of the draft DCO gives the undertaker certain powers in relation to compulsory acquisition and acquisition of rights in statutory undertakers within the Order Land. That article is subject to the protective provisions included at Schedule 12 of the draft DCO. The Applicant has included protective provisions in Part 3 of Schedule 12 and is currently negotiating bespoke protective provisions with National Grid Electricity Transmission plc, which will be updated in Part 3 of Schedule 12 of the draft DCO. The Applicant's position is that these provisions will provide adequate protection for		No	Ongoing negotiations

Statutory Undertaker Name	Plot Numbers	Nature of the Undertaking	Relevant Rights to be Extinguished; and / or the Relevant Apparatus to be Removed	Whether the Tests in s 127 & s138 can be met	Status of any Protective Provisions and / or Commercial Agreements	Settlement Reached	Representation(s) Withdrawn in Whole or Part
				National Grid Electricity Transmission plc's assets. Accordingly, the Applicant considers that National Grid Electricity Transmission plc will not suffer serious detriment to the carrying on of its undertaking, and the tests set out in sections 127(3), 127(6) and 138 of the PA 2008 are therefore satisfied.	anticipate reaching agreement during the course of the Examination.		
Network Rail Limited		Operational railway	The Applicant notes that there are no proposed works that would interact with Network Rail Limited's assets, and no rights are sought.	Network Rail Limited has no apparatus or rights that would be affected by the Proposed Scheme. The Applicant is in discussions with Network Rail Limited as to what, if any, protection is required to be in place for its benefit. The Applicant's position is that resolution of discussions with Network Rail Limited will provide adequate protection for its assets, and that Network Rail Limited will not suffer serious detriment to the carrying on of its undertaking. As the dDCO does not seek any powers with respect to land or assets owned or operated by Network Rail Limited, the tests in sections 127(3), 127(6) and 138 of the PA 2008 are not applicable.	Parties have agreed there is very limited chance of interaction with Network Rail Limited's assets. Network Rail has provided the Applicant with a Deed of Undertaking, which the Applicant has commented on, on 3 March 2023. The document is largely in agreed form, and once entered into, the Network Rail protective provisions can be removed from the dDCO. Parties expect to reach agreement during the Examination.	No	Ongoing negotiations
Northern Gas Networks Limited	01-103, 01- 104, 01- 107, 01- 108, 01-	Gas distribution	Rights to be extinguished and relevant apparatus to be moved. 					with Northern Gas Networks.		
Northern Powergrid (Yorkshire) plc	01-10, 01- 16, 01-39, 01-40, 01- 41, 01-42, 01-45, 01- 47, 01-50, 01-57, 01- 61, 01-63, 01-64, 01- 65, 01-66, 01-67, 01- 68, 01-70, 01-72, 01- 74, 01-75, 01-96, 01- 97, 01-98, 01-100, 01- 108, 01- 110, 01- 114, 01- 115, 01-118	Electricity distribution	Rights to be extinguished and relevant apparatus to be moved. Diversionary works required at various locations across Scheme, subject to detailed design. Principle of diversions to be agreed through C3 design and costing process.	Article 28 of the draft DCO gives the undertaker certain powers in relation to compulsory acquisition and acquisition of rights in statutory undertakers within the Order Land. That article is subject to the protective provisions included at Schedule 12 of the draft DCO. Part 1 of Schedule 12 of the draft DCO includes provisions for the protection of electricity, gas, water and sewerage undertakers. The Applicant's position is that these provisions provide adequate protection for Northern Powergrid (Yorkshire) plc's assets. Accordingly, the Applicant considers that Northern Powergrid (Yorkshire) plc will not suffer serious detriment to the carrying on of its undertaking, and the tests set out in sections 127(3), 127(6) and 138 of the PA 2008 are therefore satisfied. It is noted in any event no representation has been received from Northern Powergrid (Yorkshire) plc.	Drax Power Limited has been in correspondence with the land interest since September 2021. Drax Power Limited has issued Requests for Information (RFIs) in order to confirm their interests within the land. With respect to protective provisions, Drax Power Limited sent correspondence to Northern Powergrid on 23 March 2022 in relation to protective provisions. A response is awaited, and in any event the draft DCO includes standard protective provisions for the protection of electricity, gas, water and sewerage undertakers. Drax Power Limited have been in discussion with Northern Powergrid's asset team since Autumn 2022 regarding the proposed works to facilitate the delivery of abnormal indivisible loads to the site including diversion of existing electrical 11kV overhead lines. This has resulted in the submission and updating	No	

Statutory Undertaker Name	Plot Numbers	Nature of the Undertaking	Relevant Rights to be Extinguished; and / or the Relevant Apparatus to be Removed	Whether the Tests in s 127 & s138 can be met	Status of any Protective Provisions and / or Commercial Agreements	Settlement Reached	Representation(s) Withdrawn in Whole or Part
					of a C4 request from the Applicant to Northern Powergrid for a design and cost of works to Northern Powergrid's assets.		
					The C4 request from the Applicant has evolved following discussions with other parties with land interests and assets in the vicinity of OHL1 and OHL2 which may be affected by works.		
					A response to the updated C4 request is anticipated from Northern Powergrid in March 2023 in accordance with their response protocols for these requests.		
					The Applicant will continue to progress discussions with Northern Powergrid to identify the scope and extent of works necessary to facilitate the delivery of abnormal indivisible loads to the site.		
					Once the scope and extent of works are identified, the Applicant will continue negotiations with other parties affected by the works.

Drax Power Limited has issued Requests for Information (RFIs) in order to confirm their interests within the land. Drax Power Limited sent correspondence to Yorkshire Water Limited on 24 March 2022 to seek their confirmation of whether they would prefer to provide their own protective provisions for inclusion in the draft DCO or if Drax Power Limited's legal team would be drafting bespoke provisions. No response has been received, and in any event standard protective provisions for electricity, gas, water and sewerage undertakers have been included in the draft DCO. The Applicant has reviewed and will provide a response to this party regarding all clean water assets identified in their representation submitted at Deadline 3, and as discussed at CAH1. This response will be provided in document 8.10.3 – the		Ongoing negotiations.
