Subject: Request for participation in the Hearings July 10th -
Date: 03 July 2023 08:31:48

Dear Drax Bioenergy with Carbon Capture and Storage Case Team

Name	Dr Andrew Boswell
Position	Scientist and Consultant
Drax BECCS Project registration	20032289
Organisation	Climate Emergency Policy and Planning (CEPP)

I am writing to request my participation at the Hearings on July 10th.

I wish to speak about the treatment of Greenhouse Gases (GHGs) in the Environmental Statement. I am currently preparing a submission for Deadline D9 which will lay out in detail my submissions which will relate to Direct and Indirect effects under the EIA Regulations 2017 for the GHGs from the project. Some of my arguments have been presented previously in my D2 and D4 submissions, but the D9 submission will reframe this material, and provide further evidence, more clearly. I believe that my participation should be timetabled as part of ISH5 (as opposed to OFH2 or CAH2), as the matters relating to GHGs and are issue specific.

Please confirm acceptance of my request.

Yours sincerely, Andrew
