---

Hello Naoual

In respect of Procedural Deadline A, I confirm that we do not have any substantive comments to make at this point but thought it would be useful to provide a brief statement on the items identified in the Rule 6 letter for that deadline.

We do not have any comments at this stage on the Rule 6 letter or specifically on the timetable or how the examination should be examined. The Applicant's team will be present at the Preliminary Meeting to review and to respond to any points made by other parties as necessary on that matter. Similarly we will be in attendance at the Open Floor Hearing and available to comment on oral submissions by Interested Parties should the ExA request input from the Applicant at any point.

In terms of the Accompanied Site Inspection, at this stage we confirm that access to the wider site can be made available as necessary; we will review locations suggested by other parties and note the need at Deadline 3 for the Applicant, if required, to provide a proposed itinerary for that Accompanied Site Inspection.

Please let me know if you have any queries regarding the above.

Kind regards

David
