

Lincolnshire County Council (as a host authority) will be attending the ISH on Environmental Matters to assist the ExA and answer any initial questions which may arise at this stage. However, LCC will not have produced or submitted its Local Impact Report by the date of the ISH and instead intends to submit this by Deadline 2 as set out in the Rule 6 letter. In the absence of the Agenda for the ISH, we propose to therefore send an Officer from LCC (assisted by Counsel) who will be able to answer questions and clarify any broader points the ExA may have. Once the agenda for the ISH is published, should it be felt more technical expertise is required then we may wish to invite other Officers along to the ISH. We can confirm this nearer the time and those attendees could be both in person or on-line
