1 Guide to the Application

1.1 Introduction

1. This document provides a guide to RWE Renewables UK Dogger Bank South (West) Limited and RWE Renewables UK Dogger Bank South (East) Limited's (herein referred to as the 'Applicants') Development Consent Order (DCO) application for the Dogger Bank South (DBS) East and DBS West offshore wind farms, collectively known as DBS offshore wind farms (herein 'the Projects'). It sets out which document version is the most up to date.
2. This is a live document and will be updated when updates or revisions to existing documents are made and when new documents are submitted to the Planning Inspectorate.

1.2 Master Document List

3. The master document list in **Table 1-1** sets out on the following pages and provides a full list of the documents submitted for Examination, indicating either the latest revision (if applicable) or when a new document was submitted.
4. For ease of navigation these documents are grouped by volumes as follows in **Table 1-1**:

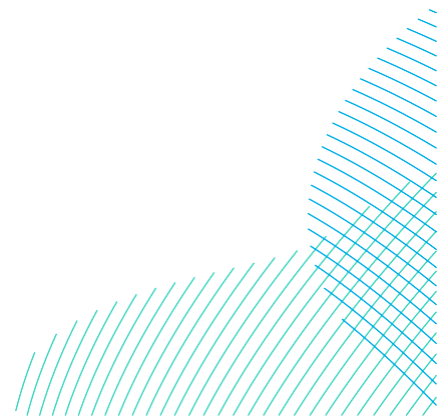

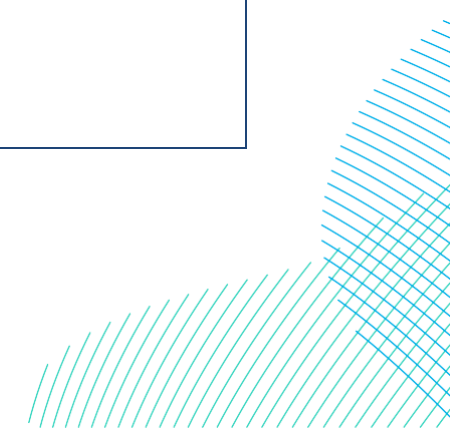

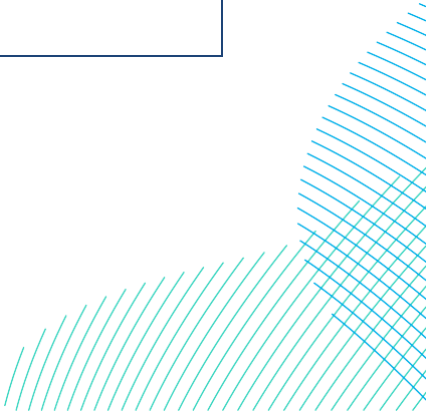

Table 1-1 Master Document List

Volume	Volume Title	Details
1	Application Form and Information	Provides details of the specific application information required by the Planning Inspectorate.
2	Plans	Contains the plans and drawings which show the location of the Projects and the works proposed.
3	Draft Development Consent Order	Outlines the legal powers sought by the Applicants to construct and maintain the Projects.
4	Compulsory Acquisition Information	Provides details of the powers of compulsory acquisition that are sought.
5	Consultation Report	Contains the Consultation Report and appendices. It should be noted that each appendix may include multiple sub-appendices. The sub-appendices have been collated into one main appendix document per appendix.
6	Report to Inform Appropriate Assessment (RIAA) / Habitat Risk Assessment (HRA)	Contains the RIAA, Derogation reports and supporting documents.

Volume	Volume Title	Details
7	Environmental Statement (ES)	<p>Contains the Applicants' assessment of the likely impacts of the Projects on the environment.</p> <p>It should be noted that there are different levels of application referencing for the ES chapters, associated figures, and associated appendices, as follows:</p> <ul style="list-style-type: none"> • The first level of the application reference is the volume number • The second level of the of the application reference is the ES chapter number. • The associated figures for each ES chapter will be submitted under one application reference per ES chapter. The application references for these documents will have three levels, and the third level will always be listed as “1” • The associated appendices for each ES chapter will be submitted as standalone documents, and will follow the first two bullet points noted above. The application references for these documents will then have four levels, whereby the third level will be the associated ES chapter number and the fourth level will be the associated appendix number.
8	Other Documents	<p>Contains additional documents produced and submitted by the Applicants in support of the application. This includes, general application information, protocols, and plans and strategies.</p>

1.3 List of Documents

5. **Table 1-2** below identifies the documents produced for DCO submission by the Applicants. The table identifies the Application Document Number, the Examination Library Reference, the Infrastructure Planning (Applications: Prescribed Forms and Procedure [APFP]) Regulations 2009, Document Title, Submission Date, Version Number and the Post-DCO Submission Date (if any) of the document.
6. Where overall documents are over 50 megabits (MB), they have been split into Parts as a separate line item in **Table 1-2**, with the same application reference number to indicate that the Parts are part of the same document.
7. In addition, this document also illustrates in **Plate 1-1** and **Plate 1-2** the relationships of onshore and offshore plans / documents secured by the draft DCO submitted as part of the DCO application, as well as relevant post-DCO submission documents, according to the requirements and conditions in the draft DCO.
