

WE-6087-2022-PLN

Some of the proposed site is within the 'extended area' of Upper Witham IDB.

Within this area in Lincolnshire, a shape file of the area is available on request.

Under the provisions of the Flood and Water Management Act 2010, and the Land Drainage Act. 1991, the prior written consent of the Lead Local Flood Authority (Lincolnshire County Council) is required for any proposed works or structures in any watercourse outside those designated main rivers and Internal Drainage Districts. At this location this Board acts as Agents for the Lead Local Flood Authority and as such any works, permanent or temporary, in any ditch, dyke or other such watercourse will require consent from the Board.

It is noted that Arcus Consulting who is working on the project is aware of this and other IDB areas. It is also noted there is a proposed 6m maintenance access strip adjacent to all watercourses.
