Deadline 2 Written Representation - Draft Development Control Order

I wish to make the following comments regarding the Draft Development Control Order, document reference PDA-003 submitted by the applicant at Procedural Deadline A.

Section 12(1) (page 13)

This section uses the phrase "shown on the claimed public right of way". It is suggested that this should be "shown on the claimed public right of way **plan**".

The phrase "claimed public right of way plan" is defined in section 2 of the dDCO.

Schedule 1 (page 35)

Section 1

Regarding the definition given for "existing substation", I note that the address given here isn't recognised by Royal Mail.

Note that the postcode isn't recognised by Royal Mail and other sources indicate that the postcode has been withdrawn from use. It would be preferable to indicate the location via grid reference instead to avoid any ambiguity.

Schedule 4

The phrase "public walkway" is used three times within this schedule. It doesn't appear that this phrase is defined either in the dDCO or other legislation.

In the case of SW-6 (Pickworth Road), as an example, the road has no pavement so it can't be that "public walkway" is intended to mean pavement.

Suggest that all instances of "public walkway" are replaced by "highway".
