

## **SUMMARY - Ramblers - submission 16841 - detailed submission.**

**I am representing the Stamford, Bourne and The Deepings Ramblers Group as an Interested Party.**

This is a group of about 100 members of the local Ramblers Association, who regularly walk around the network of public footpaths and rights of way in the locality. This Group is also joined regularly by ramblers from other Ramblers Groups for walks in the area. This submission summarises concerns around the impact this project poses to footpaths, and enjoyment of walking in and around the proposed development area, including:

- Significant restrictions to the current extensive views enjoyed from footpaths.
- Flood risk on river crossing.
- “Enclosure” of the Macmillan Way long distant path by solar panels where it crosses the proposed development.
