Subject: SITE INSPECTIONS AUGUST 2023
Date: 18 June 2023 22:46:06

Dear Planning Inspectorate

Mallard Pass has contacted some residents about site inspections. We had a problem with the portal loading on Tuesday night and have possibly missed deadline 2 for written Representation. I was tied up with urgent council meetings in the day and had problems with our submission on the portal in the evening – then we were away on holiday until today!

As we are the **closest resident** to the Ryhall 400Kv substation down Uffington Lane, and share its postcode PE9 4QD, we respectfully ask to be included in the 18-19th August site inspection. I know you are strict about the deadlines – but we are a lone property in the middle of this project and need to be considered. We will make ourselves available anytime on those two days.

Thank you.

Kind regards,

[REDACTED]
