Revision 2

Infrastructure Planning (Applications: Prescribed Forms and Procedure)

Regulations 2009 Reg 5(2)(h)

Contact Name	Plot Number	Category of Rights Required (where relevant)	Land Power Sought	Works Number/s	Purpose for which Land is Required	Relevant Representation Submitted Y/N and RR No.	Negotiations
Alastair Gunn	02-68	2	Acquisition of new rights	4	4: Required for the laying down, maintenance and replacement and use of low voltage electrical cables	Yes, RR-0019	<p>Subsoil Interest - Stamford Road, A6121</p> <p>MPSF have undertaken Land Referencing activities so that the landowners interests within the project limits could be confirmed.</p> <p>17.06.2022 - Letter - Section 42 Consultation invitation and notice.</p> <p>05.01.2023 - Letter - Section 56 Notice of acceptance of the application.</p> <p>This party is a presumed subsoil interest in highway land that may be affected by the cable route. It is noted that to prove that the presumption is correct, the land owner needs to produce evidence to show the subsoil is in their ownership and they may be entitled to compensation. However, in practice the value of that compensation is typically low, reflecting the fact that the subsoil is of little, if any, use to the land owner. The Applicant</p>

Contact Name	Plot Number	Category of Rights Required (where relevant)	Land Power Sought	Works Number/s	Purpose for which Land is Required	Relevant Representation Submitted Y/N and RR No.	Negotiations
							has indicated in its Response to Relevant Representations (having previously done so on its website) that it would be willing to discuss these cable route proposals with any Interested Party or Affected Person that wishes to do so in this context.
Alec George Bradley	02-17	1	Temporary possession	6	6: Required for the construction, improvement and replacement and use of new accesses to the authorised development or the use of existing accesses to access the authorised development	No	MPSF have undertaken Land Referencing activities so that the landowner interests within the project limits could be confirmed. 23.05.2022 - Letter - Section 42 Consultation invitation and notice. 05.01.2023 - Letter - Section 56 Notice of acceptance of the application. Heads of terms signed on 18 August 2021.
	02-35	2	Acquisition of new rights	4	4: Required for the laying down, maintenance and replacement and use of low voltage electrical cables		Following the heads of terms being signed Mr and Mrs Bradley have indicated via their Land Agent, Charles
	02-38	1, 2, 5	Acquisition of new rights	4, 6	4: Required for the laying down, maintenance and replacement and use of low voltage electrical cables 6: Required for the construction, improvement and replacement and use of new accesses to the

							<p>Consultation invitation and notice.</p> <p>05.01.2023 - Letter - Section 56 Notice of acceptance of the application.</p> <p>This party is a presumed subsoil interest in highway land that may be affected by the cable route. It is noted that to prove that the presumption is correct, the land owner needs to produce evidence to show the subsoil is in their ownership and they may be entitled to compensation. However, in practice the value of that compensation is typically low, reflecting the fact that the subsoil is of little, if any, use to the land owner. The Applicant has indicated in its Response to Relevant Representations (having previously done so on its website) that it would be willing to discuss these cable route proposals with any Interested Party or Affected Person that wishes to do so in this context.</p>

							land that may be affected by the cable route. It is noted that to prove that the presumption is correct, the land owner needs to produce evidence to show the subsoil is in their ownership and they may be entitled to compensation. However, in practice the value of that compensation is typically low, reflecting the fact that the subsoil is of little, if any, use to the land owner. The Applicant has indicated in its Response to Relevant Representations (having previously done so on its website) that it would be willing to discuss these cable route proposals with any Interested Party or Affected Person that wishes to do so in this context.

					replacement and use of low voltage electrical cables		between the parties and the Applicant expects these to be agreed not long into the Examination period.
	02-81	2	Acquisition of new rights	4	4: Required for the laying down, maintenance and replacement and use of low voltage electrical cables		Negotiations continue with Network Rail.
	04-19	2	Acquisition of new rights	4	4: Required for the laying down, maintenance and replacement and use of low voltage electrical cables		NR advised DWD on 31 May 2023 that, with respect to land and property matters, Business Clearance has been granted and that they have now started Technical Clearance. DWD reiterated on 31 May 2023 that the Applicant is seeking an option for an easement that would be exercisable subject to satisfaction of engineering issues and requested an update on proposed terms for the purposes of negotiation. With regard to engineering issues, NR have now issued up-to date engineering records for the brick arch structure and have undertaken a detailed survey such that discussions are to accommodate the high voltage cables on a free-standing cable tray system through the centre arch of

							<p>This party is a presumed subsoil interest in highway land that may be affected by the cable route. It is noted that to prove that the presumption is correct, the land owner needs to produce evidence to show the subsoil is in their ownership and they may be entitled to compensation. However, in practice the value of that compensation is typically low, reflecting the fact that the subsoil is of little, if any, use to the land owner. The Applicant has indicated in its Response to Relevant Representations (having previously done so on its website) that it would be willing to discuss these cable route proposals with any Interested Party or Affected Person that wishes to do so in this context.</p>

							<p>This party is a presumed subsoil interest in highway land that may be affected by the cable route. It is noted that to prove that the presumption is correct, the land owner needs to produce evidence to show the subsoil is in their ownership and they may be entitled to compensation. However, in practice the value of that compensation is typically low, reflecting the fact that the subsoil is of little, if any, use to the land owner. The Applicant has indicated in its Response to Relevant Representations (having previously done so on its website) that it would be willing to discuss these cable route proposals with any Interested Party or Affected Person that wishes to do so in this context.</p>
