

**Presentation of Petition P002919
Proposed Mallard Pass solar plant
Petition of residents of the United Kingdom
Alicia Kearns**

To the House of Commons.

The petition of residents of the United Kingdom,
Declares that the proposed Mallard Pass solar plant should be rejected; further that the inappropriate scale of this development would lead to irreversible damage to the community due to the loss of quality, productive agricultural land, the loss of the natural character of the countryside, lasting damage on biodiversity and the environment, damage to historical assets and identity, and the risk of a solar plant produced by forced labour in the developers' supply chain.

And the petitioners remain, etc.
