

SCHEDULE OF NEGOTIATIONS AND POWERS SOUGHT: 4.4

DECARBONISATION

Cory Decarbonisation Project

PINS Reference: EN010128

March 2024

Revision A

Introduction

This **Schedule of Negotiations and Powers Sought (Document Reference 4.4)** refers to:

- the name of the party affected by the Proposed Scheme, as described in the **Book of Reference (Document Reference 4.3)**;
- the plot numbers used in the **Land Plans (Document Reference 2.2)** to identify the plots of land within the Order limits within which the aforementioned party has an interest. The Schedule has been developed to ensure that every plot on the Land Plans has been included;
- the land power sought, being either:
 - ‘all interests and rights’ being the power of compulsory acquisition in article 26;
 - “acquisition of rights” being the power of compulsory acquisition of new and existing rights and imposition of restrictive covenants in article 28; and
 - “temporary possession” being the power of temporary possession in article 35;
- for the acquisition of rights plots, the category of rights sought, by reference to the categorised number of the types of rights set out and numbered in the **Book of Reference (Document Reference 4.3)** and repeated below; and
- the purposes for which that plot of land is required, by reference to the Works Numbers in Schedule 1 of the **draft DCO (Document Reference 3.1)** and the description of those Works, or where that is not relevant, an explanation of this; and
- a record and status of negotiations with that party in relation to all plots in which that party has an interest.

This **Schedule of Negotiations and Powers Sought (Document Reference 4.4)** should therefore be read in conjunction with the **Land Plans (Document Reference 2.2)** and **Book of Reference (Document Reference 4.3)** for an understanding of the plot numbers, and with the **Works Plans (Document Reference 2.3)** and Schedule 1 to the **draft DCO (Document Reference 3.1)** for an understanding of the Work Numbers.

The document has also been set up for use in Examination, with a currently blank column for ‘Relevant Representation Submitted’. When Examination commences, that column will be able to be completed, to enable the Examination Authority to track which parties have raised relevant representations, how their land is affected, and the status of negotiations with them all in one document.

The categories of rights referred to are as follows:

Category 1: “connection rights” means, right over land to, for the purposes of the authorised development, and in connection with the authorised development—

- (a) install, use, support, protect, inspect, alter, remove, replace, retain, renew, improve and maintain electrical cables, earthing cable, optical fibre cable, data cable, telecommunications cable, flue gas pipework, condensate pipework, water supply pipework, foul water pipework, drains, sewers, heat pipes, LCO₂ pipework, and other apparatus and services, and associated works including bays, ducts, protection and safety measures and equipment, and other apparatus and structures;
- (b) connect the services, apparatus, equipment, buildings and structures set out in sub-paragraph (a) to existing services, apparatus, equipment, buildings and structures;
- (c) modify existing buildings structures;
- (d) remain, pass and repass on foot, with or without vehicles, plant and machinery (including rights to lay and use any temporary surface or form a temporary compound) for all purposes in connection with the authorised development; and

- (e) restrict and remove the erection of buildings or structures, restrict the altering of ground levels, restrict and remove the planting of trees or carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt or interfere with the exercise of the rights or damage the authorised development.

Category 2: “utilities rights” means - rights over land to, for the purposes of the authorised development, and in connection with the authorised development—

- (a) install, use, support, protect, inspect, alter, remove, replace, retain, renew, improve and maintain underground electrical cables, earthing cable, optical fibre cable, data cable, telecommunications cable, flue gas pipework, condensate pipework, water supply pipework, foul water pipework, drains, sewers, heat pipes, LCO₂ pipework, and other apparatus and services, and associated works including bays, ducts, protection and safety measures and equipment, and other apparatus and structures;
- (b) remain, pass and repass on foot, with or without vehicles, plant and machinery (including rights to lay and use any temporary surface or form a temporary compound) for all purposes in connection with the authorised development; and
- (c) restrict and remove the erection of buildings or structures, restrict the altering of ground levels, restrict and remove the planting of trees or carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt or interfere with the exercise of the rights or damage the authorised development.

Category 3: “maintenance access rights” means, rights over land to, for the purposes of the authorised development, and in connection with the authorised development, pass and repass on foot, with or without vehicles, plant and machinery (including rights to lay and use any temporary surface) and restrict and remove the erection of buildings or structures, restrict the altering of ground levels, restrict and remove the planting of trees or carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt or interfere with the exercise of the rights.

Category 4: “access rights” means, rights over land to, for the purposes of the authorised development, and in connection with the authorised development—

- (a) alter, improve, form, maintain, retain, use (with or without vehicles, plant and machinery) and remove means of access to the authorised development including visibility splays and to remove and traverse impediments to such access; and
- (b) remain, pass and repass on foot, with or without vehicles, plant and machinery (including rights to lay and use any temporary surface or form a temporary compound) for all purposes in connection with the authorised development
- (c) restrict and remove the erection of buildings or structures, restrict the altering of ground levels, restrict and remove the planting of trees or carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt or interfere with the exercise of the rights or damage the authorised development.

Category 5: “LCO₂ pipework rights” means, right over land to, for the purposes of the authorised development, and in connection with the authorised development—

- (a) install, use, support, protect, inspect, alter, remove, replace, retain, renew, improve and maintain LCO₂ pipework and associated works including supports, protection and safety measures and other apparatus and structures;
- (b) remain, pass and repass on foot, with or without vehicles, plant and machinery (including rights to lay and use any temporary surface or form a temporary compound) for all purposes in connection with the authorised development; and
- (c) restrict and remove the erection of buildings or structures, restrict the altering of ground levels, restrict and remove the planting of trees or carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt or interfere with the exercise of the rights or damage the authorised development.

Category 6: “maintenance rights” means, rights over land to, for the purposes of the authorised development, and in connection with the authorised development, undertake construction, maintenance and decommissioning activities for Work No. 4, including laydown areas, compounds and welfare facilities and restrict and remove the erection of buildings or structures, restrict the altering of ground levels, restrict and remove the planting of trees or carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt or interfere with the exercise of the rights.

							spur road in connection with the Proposed Scheme, and to answer Alaska PropCo's initial questions.
Asda Stores Limited	1-028	3	Acquisition of new rights	-	Required for construction, maintenance and decommissioning access		<p>Cory's engagement with ASDA commenced in advance of statutory consultation (that began on Wednesday 18 October 2023) on 2 October 2023 and to date has been undertaken through discussions and the exchange of email correspondence.</p> <p>Cory also has regular and ongoing engagement with ASDA including site meetings for the implementation of the Riverside Energy Park Order 2020 principally around logistics movements on Norman Road, Belvedere, which is within the Proposed Scheme.</p> <p>Cory has engaged with ASDA on the Proposed Scheme, with early communication focussing on establishing a dialogue and introducing the Proposed Scheme. Whilst the ASDA site is not included in the red-line boundary for the Proposed Scheme, the discussion was based on providing information about the Proposed Scheme. ASDA did not respond directly to the statutory consultation but through engagement Cory wrote to ASDA on 1 February 2024 to address some of its queries outside that forum, and has sought a specific meeting with ASDA to discuss the Proposed Scheme.</p>

Aviva Life & Pensions UK Limited	1-007	2, 4	Acquisition of new rights	3	Work No. 3: Required for Utilities Connection Corridor and Site Access Works from Norman Road		Cory initiated discussions with Aviva (through JLL) at a liaison meeting on 19 May 2023 (having first issued a letter on 17 April 2023), followed by a further liaison meeting on 12 June 2023. Discussions to date have involved introducing Cory's Proposed Scheme, access to undertake non-intrusive ecology surveys, the extent of Aviva's land ownership, and its River Works Licence arrangements with the PLA regarding the redundant Aviva Jetty. The parties also discussed the compulsory acquisition of the

The general consensus from both parties was that it would be simpler to use DCO powers to deliver both (a) and (b), subject to Aviva reviewing the positions with its legal advisors. The parties agreed to meet again following submission of DCO application to discuss and agree next steps in further detail.

					maintenance and decommissioning access		<p>proposed scheme on 4 July 2023, prior to statutory consultation through discussion and email correspondence.</p> <p>Cory met with representatives of Iron Mountain on site on 4 October 2023, before the commencement of statutory consultation, and since then Cory has had a further liaison meeting online on 26 January 2024. The discussions introduced the Proposed Scheme and Cory's proposals for the removal of at least part of the redundant Belvedere Power Station Jetty (hereafter referred to as the Aviva Jetty) and the construction of a new jetty in order to enable Cory to transfer liquified carbon dioxide to river-based transport. The discussions have also covered Cory's intention to seek temporary rights to facilitate the removal of the existing, redundant Aviva Jetty, and permanent rights to operate, maintain and protect the new jetty following completion of the Scheme, similar to those rights currently reserved by Aviva.</p> <p>Cory also made contact with and engaged Iron Mountain regarding access for non-intrusive topographical surveys on 14 November 2023.</p> <p>All of the engagement has been undertaken through discussions, the exchange of email</p>

Munster Joinery (U.K.) Limited	1-022	-	All interests and rights	1E, 6A	Work No. 1E: Required for Carbon Capture Facility Supporting Plant Work No. 6A: Required for Core Construction Compound		Cory's engagement with Landsul and Munster Joinery commenced in advance of statutory consultation (that began on Wednesday 18 October) on 29 March 2023 and has been undertaken through discussions, the exchange of email correspondence and formal liaison meetings with representatives of Landsul and Munster Joinery.

Contact Name	Plot number	Category of Rights Required (where relevant)	Land Power Sought	Work Number	Purpose for which Land is Required	Relevant Representation Submitted (Y/N)	Status of Negotiations
							<p>A liaison meeting took place on 11 September 2023 with discussions focussed on establishing a dialogue and introducing the Proposed Scheme, explaining the rationale for Cory's compulsory acquisition requirements as regards the Landsul owned site on Norman Road (that is part occupied by Munster Joinery). The discussion also covered Munster Joinery's position with regard to its potential relocation and Cory's willingness to explore how relocation might work and how Cory could assist.</p> <p>Subsequent meetings will be sought to continue to seek engagement regarding Cory's compulsory acquisition requirements for the Proposed Scheme with a view to reaching a negotiated, voluntary acquisition of Landsul's site and the assisted relocation of Munster Joinery's operation.</p> <p>Landsul and Munster Joinery also submitted a response to Cory's statutory consultation dated 28 November 2023 which included an objection to the proposed compulsory acquisition of its site, as well as raising concerns over and seeking clarity on site selection, design life for the Proposed Scheme, and Cory's case for the compulsory acquisition of the Creek Side site; Cory provided a formal response on 30 January 2024 and continues to engage with Landsul and Munster Joinery.</p>

							<p>undertaking, as shared on 22.02.2024.</p> <ul style="list-style-type: none"> 06.03.2024 - outgoing email providing initial responses to some of the comments raised in the PLA's email of 06.03.2024 to reflect what Cory is likely to be able to achieve before submission, and requested further thoughts on specific matters to help with Cory finalising its submission.
RI Mountain Max Limited	1-028	3	Acquisition of new rights	-	Required for construction, maintenance and decommissioning access		<p>Cory held a liaison meeting with Realty Income on 17 January 2024 having first made contact by email correspondence on 4 December 2023 – Cory was first informed by Iron Mountain that RI Mountain Max Limited (through Realty Income) were its landlord on 27 November 2023. The discussions introduced the Proposed Scheme and Cory's proposals for the removal of at least part of the redundant Aviva Jetty and the construction of a new jetty in order to enable Cory to transfer liquified carbon dioxide to river-based transport. The discussions also covered Cory's intention to seek temporary rights to facilitate the removal of the existing, redundant Aviva Jetty, and permanent rights to operate, maintain and protect the new jetty following completion of the Scheme,</p>
	1-053	3	Acquisition of new rights	-	Required for construction, maintenance and decommissioning access		
	1-083	3, 6	Acquisition of new rights	6C	Required for construction, maintenance and decommissioning access and undertaking construction, maintenance and decommissioning activities in relation to the Proposed Jetty		

Contact Name	Plot number	Category of Rights Required (where relevant)	Land Power Sought	Work Number	Purpose for which Land is Required	Relevant Representation Submitted (Y/N)	Status of Negotiations
					Work No. 6C: Required for Jetty Construction Compound		similar to those rights currently reserved by Aviva.
	1-092	-	Temporary possession	4, 6C	4: Required to undertake Work No. 4. Work No. 6C: Required for Jetty Construction Compound		All of the engagement has been undertaken through the exchange of email correspondence and a formal liaison meeting with representatives of Realty Income.
	1-097	-	Temporary possession	4A, 4B, 6C	Work No. 4A: Required for Modifications to or Removal of the Belvedere Power Station Jetty Work No. 4B: Required for the Proposed Jetty Work No. 6C: Required for Jetty Construction Compound		Subsequent meetings will be arranged to continue to seek engagement regarding Cory's land use proposals and to provide regular updates on the progress of Cory's DCO application. The list below includes key correspondence that Cory has had to date with RI Mountain Max Limited <ul style="list-style-type: none"> • 05.04.2023 – initial LIQ issued. • 04.12.2023 – outgoing email correspondence from Ardent introducing the Proposed Scheme and enclosing section 42 documentation with an offer to hold a meeting to discuss further. • 15.01.2024 – outgoing email correspondence from Ardent reiterating offer of a meeting to discuss information provided on 04.12.2023.

Seamus Gannon	1-011	-	All interests and rights	1E, 6A	Work No. 1E: Required for Carbon Capture Facility Supporting Plant Work No. 6A: Required for Core Construction Compound		Cory's engagement with Mr Gannon commenced in advance of statutory consultation (that began on Wednesday 18 October 2023) on 17 April 2023 and has been undertaken through discussions, the exchange of email correspondence and a formal liaison meeting with representatives of Mr Gannon on 14 September 2023. Having corresponded with Mr Gannon's advisors prior, the formal liaison meeting that took place on 14 September 2023 focussed on establishing a dialogue and introducing the Proposed Scheme, explaining the rationale for Cory's compulsory acquisition requirements as regards the land owned by Mr Gannon, and exploring Mr Gannon's aspirations for the site on Norman Road. Subsequent meetings will be sought to continue to seek engagement regarding Cory's compulsory acquisition requirements for the Proposed Scheme with a view to reaching a negotiated, voluntary acquisition of Mr Gannon's site.

					Works from Norman Road		<p>Discussions to date have involved introducing Cory's Proposed Scheme, Thames Water's activities, land ownership and responsibility for the Crossness Local Nature Reserve, and seeking to understand the licence arrangements with the onsite grazier. The liaison meetings have also provided opportunity for the parties to discuss Cory's proposals for the mitigation and enhancement of the Crossness Local Nature Reserve (Crossness LNR) through a tri-partite agreement with Peabody – Cory has subsequently shared a draft skeletal legal framework with Thames Water on 14 November 2023 for review, comment and further discussion. Further, the parties have also discussed the Proposed Scheme's compulsory acquisition requirements as they affect Thames Water's land holding, and Cory has shared draft Heads of Terms for an option agreement with Thames Water on 20 December 2023, for review, comment and discussion, with a view to reaching a negotiated, voluntary acquisition.</p> <p>Subsequent liaison meetings are being sought with Thames Water to continue this engagement and progress negotiations on both agreements with Thames Water.</p> <p>Thames Water also submitted a response to Cory's statutory consultation dated 27 November 2023 in which it raised concerns</p>
