## 1. INTRODUCTION

---

### 1.1. Parties

1.1.1. The “Parties” to this Statement of Common Ground (‘SoCG’) are Cory Environmental Holdings Limited (‘the Applicant’) and UK Power Networks (‘UKPN’).

### 1.2. Purpose of this Statement of Common Ground

1.2.1. This SoCG has been prepared by the Applicant to inform the Examining Authority of the matters agreed and, if applicable, the matters yet to be agreed, between the Parties in relation to the Development Consent Order (‘DCO’) application for the Cory Decarbonisation Project (‘the Proposed Scheme’).

### 1.3. Background and Description of the Proposed Scheme

1.3.1. The Applicant has applied to the Secretary of State for Energy Security and Net Zero under the Planning Act 2008 for powers to construct, operate, maintain and decommission a carbon capture facility to capture carbon dioxide from energy from waste facilities Riverside 1 and Riverside 2 (at the time of writing, construction for Riverside 2 is ongoing) at Cory’s existing facility on Norman Road (‘the Riverside Campus’), in the London Borough of Bexley.

1.3.2. The application was submitted to the Planning Inspectorate on 20 March 2024 and was accepted for Examination on 18 April 2024.

1.3.3. The Proposed Scheme is described in **Chapter 2: Site and the Proposed Scheme (Volume 1)** of the **Environmental Statement (Document Reference 6.1)** and the principal elements include:

- the Carbon Capture Facility (including its associated supporting plant and ancillary infrastructure);
- a Proposed Jetty to allow for export of the captured carbon by vessel;
- a Mitigation and Enhancement Area;
- Temporary construction compounds; and
- Utilities Connections and Site Access Works.

### 1.4. UKPN’s Interests

1.4.1. The Applicant has engaged and consulted with UKPN because it anticipates that UKPN will have an interest in the Riverside Campus in the form of a substation lease and associated easement(s), and will have apparatus in the ground up Norman Road and one of the sites to be developed on the west of Norman Road, by the time construction of the Proposed Scheme takes place.

1.4.2. Acknowledging the future interests and apparatus of UKPN the Applicant has provided for Protective Provisions in the **draft DCO (Document Reference 3.1)**.

## 2. RECORD OF ENGAGEMENT
