## 1. INTRODUCTION

### 1.1. PURPOSE OF THE STATEMENT OF COMMON GROUND

- 1.1.1. A Statement of Common Ground (SoCG) is a written statement produced during the application process for a Development Consent Order (DCO) and is prepared jointly by the applicant and another party.
- 1.1.2. Paragraph 007 of the Ministry for Housing, Communities and Local Government (MHCLG) Guidance entitled ‘Planning Act 2008: Examination stage for Nationally Significant Infrastructure Projects’ (30 April 2024) (hereafter referred to as MHCLG Guidance)<sup>1</sup> describes a SoCG as follows:
- “A Statement of Common Ground (SoCG) is a written statement prepared jointly by the applicant and another party or parties, setting out any matters on which they agree, or indeed disagree. A SoCG helps to ensure that the evidence at the examination focuses on the material differences between the main parties and therefore makes best use of the lines of questioning pursued by the Examining Authority”.*
- 1.1.3. This SoCG has been prepared in accordance with the MHCLG Guidance<sup>1</sup>. The aim of a SoCG is to assist the Examining Authority in examining the DCO by providing an understanding of the status of discussions or negotiations between the applicant and the other party. The effective use of the SoCG aids an efficient examination process.
- 1.1.4. A SoCG may be submitted to the Planning Inspectorate either prior to the start of, or during, an Examination and is updated as necessary, or as requested, during the Examination.
- 1.1.5. This SoCG has been prepared by WSP UK Limited on behalf of Cory Environmental Holdings Limited (the Applicant). It accompanies the application for a DCO (the DCO Application) in relation to the Cory Decarbonisation Project in Bexley, London. The DCO Application has been made in accordance with Section 37 of the Planning Act 2008 (as amended) and submitted to the Secretary of State (the SoS) of the Department for Energy Security and Net Zero (DESNZ).
- 1.1.6. The DCO, if granted, would authorise the construction, operation, maintenance and decommissioning of the Cory Decarbonisation Project (the Proposed Scheme). The Proposed Scheme is to be located at Norman Road, Belvedere in the London Borough of Bexley (National Grid Reference/NGR 549572,180512).
- 1.1.7. The Proposed Scheme is described in **Chapter 2: Site and Proposed Scheme Description** of the **Environmental Statement (Volume 1) (ES, APP-051)** and includes:
- the Carbon Capture Facility (including its associated supporting plant and ancillary infrastructure);
  - a Proposed Jetty to allow for export of the captured carbon by vessel;
  - a Mitigation and Enhancement Area;

- Temporary Construction Compounds; and
- Utilities Connections and Site Access Works.

## **1.2. INTRODUCTION TO DARTFORD BOROUGH COUNCIL**

- 1.2.1. This SoCG has been prepared between Dartford Borough Council and the Applicant (jointly referred to as the Parties) in relation to the DCO Application. Hereafter Dartford Borough Council is referred to as 'DBC'.
- 1.2.2. The anticipated construction vehicle route for the Proposed Scheme falls within the administrative area of DBC. Whilst Kent County Council (KCC) are the local highway authority for the administrative area, DBC are still a relevant party with which to prepare a SoCG.
- 1.2.3. Advice and consultation responses by DBC are typically provided as part of non-statutory consultation and engagement (in response to the Environmental Impact Assessment (EIA) Scoping Report<sup>2</sup>), as part of statutory consultation (including on the Preliminary Environmental Information Report (PEIR)<sup>3</sup>) and participation in the Examination process.

## **1.3. STATEMENT OF COMMON GROUND STRUCTURE**

- 1.3.1. Section 2 summarises all engagement to date of relevance to this SoCG and Section 3 details whether matters are Agreed, Not Agreed, or Under Discussion between the Parties.
- 1.3.2. In respect of matters relevant to the Proposed Scheme, but not referred to in this SoCG, DBC has no further comments to make at this point.
- 1.3.3. This SoCG is a document that is expected to evolve during the Examination, concluding with a version that confirms the Parties' positions on relevant matters before the close of the Examination.

## 2. RECORD OF ENGAGEMENT

2.1.1. A summary of the meetings and correspondence that has taken place between the Applicant and DBC in relation to the Proposed Scheme is outlined in the Table below. There has been email correspondence between the parties to discuss the sharing of information, arrangement of meetings, and for them to comment on draft documentation, but this table reflects the key meetings and emails of note that have taken place between the parties.

  - “Not Agreed” indicates a final position of the Parties that is not agreed.
- 3.1.2. It can be taken that any matters not specifically referred to in this section of this SoCG are not of material interest or relevance to DBC’s representation and therefore have not been considered in this document.
