13 December 2023

Dear Ms Williams

Outer Dowsing Offshore Wind

Notice to the Secretary of State Pursuant to Section 46 of the Planning Act 2008 of Further Statutory Consultation

We previously notified you by letters dated 5 June 2023 and 18 October 2023 that GTR4 Limited (trading as Outer Dowsing Offshore Wind) ("the Applicant") intends to apply to the Secretary of State for Energy Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 for the construction and operation of Outer Dowsing Offshore Wind ("the Project"). It is expected that the DCO application for the Project will be submitted in Q1 of 2024.

Following the latter notification, the Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 in October, November and December 2023 (the "Autumn Consultation").

Through consideration of the responses to the Autumn Consultation and ongoing design development, changes have been made to the Project including:

1. Refinement of landscaping to better align with landownership boundaries to prevent severed land and enable access for maintenance;
2. Addition of drainage works adjacent to the landscaping to mitigate landowner concerns of potential impacts of planting on land drainage;
3. Amendments to accesses following landowner consultation;
4. Re-location and removal of passing places following design optimisation studies;
5. Removal and re-location of construction compounds based on engineering refinements and landowner feedback; and
6. Refinement of landfall works to accommodate optimised engineering design and environmental mitigation.

The Applicant is now undertaking further targeted statutory consultation regarding these changes to ensure that any persons with an interest in the changes are duly consulted with (the "Targeted Statutory Consultation"). It will run from Monday 18th December 2023 until Friday 19th January 2024.

We are writing to notify you of the above in accordance with Section 46 of the Planning Act 2008.

Background to the Project

The Project will be located approximately 54km from the Lincolnshire coastline in the southern North Sea. The Project will include both offshore and onshore infrastructure including an offshore generating station

of up to 100 wind turbines, offshore platforms and other electrical infrastructure. Offshore export cables will export electricity via export cables to landfall located at Wolla Bank, Chapel St Leonards.

At landfall, the offshore export cables will be connected to the onshore infrastructure. Onshore cables will be routed underground to an onshore substation in the vicinity of Surfleet Marsh with cables routed underground from that onshore substation in order to connect into the main transmission network via new transmission infrastructure to be owned and operated by National Grid.

Further information can be found in the consultation materials (see below).

Consultation Materials

The Applicant is about to commence the Targeted Consultation under Section 42 of the Planning Act 2008. Therefore, in accordance with Section 46 of the Planning Act 2008, please find enclosed:

1. Hard copies of the template Section 42 Cover Letters to be issued to consultees. Please note that there are two forms of letter: (i) letter to be sent to persons identified for the purposes of Section 44 of the Planning Act 2008; and (ii) letter to be sent to all other statutory consultees; and
2. A hard copy of the notice published prior to the Autumn Consultation under Section 48 of the Planning Act 2008.

The consultation materials for the purposes of this Further Statutory Consultation comprise the following:

1. Targeted Consultation Supporting Information;
2. Targeted Consultation Refinements Plan; and
3. Targeted Consultation Onshore Order Limits Plan.

Electronic copies of the above consultation materials made available to the consultees can be downloaded at the following link [PINS: Outer Dowsing Offshore Windfarm - Shepherd and Wedderburn \(shepwedd.com\)](#).

The consultation materials referred to above can also be viewed on the project website at www.outerdowsing.com/ or accessed free of charge at the locations and times set out in the Section 42 Cover Letters enclosed with this letter from Monday 18th December 2023 until Friday 19th January 2024.

Consultation Period

The consultation will end at 11.59pm on **Friday 19 January 2024**.

If you have any queries regarding the content of this letter or the Project generally, please do not hesitate to contact me on the below contact details.

Yours sincerely

Chris Jenner
Development Manager
Outer Dowsing Offshore Wind

Dear Sir/Madam

Outer Dowsing Offshore Wind**Further Statutory Pre-Application Consultation under Section 42 and Section 44 of the Planning Act 2008**

We are writing to consult with you on the proposed application for Outer Dowsing Offshore Wind ("the Project").

GTR4 Limited (trading as Outer Dowsing Offshore Wind) ("the Applicant") intends to apply to the Secretary of State for Energy Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 for the construction and operation of the Project. It is expected that the DCO application for the Project will be submitted in Q1 of 2024.

The Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 in June and July 2023 (the "Initial Statutory Consultation"). The Applicant subsequently undertook additional consultation on proposed changes to the Project (both onshore and offshore) in October, November and December 2023 (the "Autumn Consultation").

Through consideration of the responses to the Autumn Consultation and ongoing design development, changes have been made to the Project including:

1. Refinement of landscaping to better align with landownership boundaries to prevent severed land and enable access for maintenance;
2. Addition of drainage works adjacent to the landscaping to mitigate landowner concerns of potential impacts of planting on land drainage;
3. Amendments to accesses following landowner consultation;
4. Re-location and removal of passing places following design optimisation studies;
5. Removal and re-location of construction compounds based on engineering refinements and landowner feedback; and
6. Refinement of landfall works to accommodate optimised engineering design and environmental mitigation.

The Applicant is now undertaking further targeted statutory consultation to ensure that any persons with an interest in the changes are duly consulted with (the "Targeted Consultation"). You have been identified as a consultee for the purposes of this consultation. The Applicant will consider any relevant responses received when preparing the final DCO application. If you provided a response to the Initial Statutory Consultation or the Autumn Consultation, please be assured that these responses are being considered by the Applicant.

In accordance with Section 48 of the Planning Act 2008, the Applicant must publicise the proposed application. Notice was given in June 2023 ahead of the Initial Statutory Consultation, and a subsequent notice was given in October 2023 ahead of the Autumn Consultation. A copy of the notice given in October 2023 is enclosed with this letter for information.

Background to the Project

The Project will be located approximately 54km from the Lincolnshire coastline in the southern North Sea. The Project will include both offshore and onshore infrastructure including an offshore generating station

of up to 100 wind turbines, offshore platforms and other electrical infrastructure. Offshore export cables will export electricity via export cables to landfall located at Wolla Bank, Chapel St Leonards.

At landfall, the offshore export cables will be connected to the onshore infrastructure. Onshore cables will be routed underground to an onshore substation in the vicinity of Surfleet Marsh with cables routed underground from that onshore substation in order to connect into the main transmission network via new transmission infrastructure to be owned and operated by National Grid.

Further information can be found in the consultation materials (see below).

Consultation Materials

The Applicant prepared a Preliminary Environmental Information Report ("PEIR") for the purposes of the Initial Statutory Consultation which reported the results of the Environmental Impact Assessment ("EIA") carried out at that point in time. The Applicant prepared an Environmental Update Report to support the Autumn Consultation. The purpose of the PEIR and Environmental Update Report is to enable consultees to understand the likely environmental effects of the Project and to help inform consultation responses. It should be noted that EIA is an ongoing process and the design of the Project will continue to evolve during the pre-application stage.

The consultation materials for the purposes of this Targeted Consultation comprise the following:

1. Targeted Consultation Supporting Information;
2. Targeted Consultation Refinements Plan; and
3. Targeted Consultation Onshore Order Limits Plan.

These consultation materials can be viewed on the project website at www.outerdowsing.com/ or accessed free of charge at the locations and times set out below from Monday 18th December 2023 until Friday 19th January 2024. A USB device containing the consultation materials can be provided free of charge on request. Hard copies of the consultation materials are also available free of charge on request. If you would like to request copies of the consultation materials please contact the project team by using one of the contact methods set out in this letter.

Consultation materials provided during the Initial Statutory Consultation in June/July 2023, including the PEIR, and during the Autumn Consultation are available on the project website at www.outerdowsing.com/.

Responding to this consultation

Any consultation responses should be made in writing to:

FREEPOST ODOW (no stamp or further address details needed on the envelope)

Or via email: contact@outerdowsing.com

The consultation will end at 11.59pm on **Friday 19 January 2024**.

Please ensure that all comments are submitted to Outer Dowsing Offshore Wind before the consultation end date.

Consultation responses may be made publicly available however the Applicant will not share individuals' data (although the Applicant may indicate the general area of an individual's location for context).

If you would like further information about this consultation, the consultation materials or the Project, please contact the project team by using one of the following contact methods:

Email: contact@outerdowsing.com

Post: FREEPOST ODOW (no stamp or further address details needed on the envelope)

We look forward to hearing from you.

Yours faithfully

Chris Jenner
Development Manager
Outer Dowsing Offshore Wind

Ref:

Dear Sir/Madam

Outer Dowsing Offshore Wind**Further Statutory Pre-Application Consultation under Section 42 and Section 44 of the Planning Act 2008**

We are writing to consult with you on the proposed application for Outer Dowsing Offshore Wind ("the Project").

GTR4 Limited (trading as Outer Dowsing Offshore Wind) ("the Applicant") intends to apply to the Secretary of State for Energy Security and Net Zero for a Development Consent Order ("DCO") under Section 37 of the Planning Act 2008 for the construction and operation of the Project. It is expected that the DCO application for the Project will be submitted in Q1 of 2024.

The Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 in June and July 2023 (the "Initial Statutory Consultation"). The Applicant subsequently undertook additional consultation on proposed changes to the Project (both onshore and offshore) in October, November and December 2023 (the "Autumn Consultation").

Through consideration of the responses to the Autumn Consultation and ongoing design development, changes have been made to the Project including:

1. Refinement of landscaping to better align with landownership boundaries to prevent severed land and enable access for maintenance;
2. Addition of drainage works adjacent to the landscaping to mitigate landowner concerns of potential impacts of planting on land drainage;
3. Amendments to accesses following landowner consultation;
4. Re-location and removal of passing places following design optimisation studies;
5. Removal and re-location of construction compounds based on engineering refinements and landowner feedback; and
6. Refinement of landfall works to accommodate optimised engineering design and environmental mitigation.

The Applicant is now undertaking further targeted statutory consultation to ensure that any persons with an interest in the changes are duly consulted with (the "Targeted Consultation"). You have been identified as a consultee for the purposes of this consultation. The Applicant will consider any relevant responses received when preparing the final DCO application. If you provided a response to the Initial Statutory Consultation or the Autumn Consultation, please be assured that these responses are being considered by the Applicant.

In accordance with Section 48 of the Planning Act 2008, the Applicant must publicise the proposed application. Notice was given in June 2023 ahead of the Initial Statutory Consultation, and a subsequent notice was given in October 2023 ahead of the Autumn Consultation. A copy of the notice given in October 2023 is enclosed with this letter for information.

Background to the Project

The Project will be located approximately 54km from the Lincolnshire coastline in the southern North Sea. The Project will include both offshore and onshore infrastructure including an offshore generating station

of up to 100 wind turbines, offshore platforms and other electrical infrastructure. Offshore export cables will export electricity via export cables to landfall located at Wolla Bank, Chapel St Leonards.

At landfall, the offshore export cables will be connected to the onshore infrastructure. Onshore cables will be routed underground to an onshore substation in the vicinity of Surfleet Marsh with cables routed underground from that onshore substation in order to connect into the main transmission network via new transmission infrastructure to be owned and operated by National Grid.

Further information can be found in the consultation materials (see below).

Your interest in the land

The Applicant has undertaken diligent inquiry including a review of title and Land Registry information, and has identified that you have interest in land which either (i) was included in the plans that accompanied the Autumn Consultation and has now been removed from the onshore order limits of the Project or (ii) was not included in the plans that accompanied the Autumn Consultation and has now been added to the onshore order limits or (iii) both.

Please refer to the plan titled Targeted Consultation refinements Plan comprised within the consultation materials showing the land which has been removed from and added to the onshore order limits since the Autumn Consultation, and the plan titled [Targeted Consultation Onshore Order Limits Plan] comprised within the consultation materials showing the land which now falls within the Project's proposed development area.

Consultation Materials

The Applicant prepared a Preliminary Environmental Information Report ("PEIR") for the purposes of the Initial Statutory Consultation which reported the results of the Environmental Impact Assessment ("EIA") carried out at that point in time. The Applicant prepared an Environmental Update Report to support the Autumn Consultation. The purpose of the PEIR and Environmental Update Report is to enable consultees to understand the likely environmental effects of the Project and to help inform consultation responses. It should be noted that EIA is an ongoing process and the design of the Project will continue to evolve during the pre-application stage.

The consultation materials for the purposes of this Targeted Consultation comprise the following:

1. Targeted Consultation Supporting Information;
2. Targeted Consultation Refinements Plan; and
3. Targeted Consultation Onshore Order Limits Plan.

These consultation materials can be viewed on the project website at www.outerdowsing.com/ or accessed free of charge at the locations and times set out below from Monday 18th December 2023 until Friday 19th January 2024. A USB device containing the consultation materials can be provided free of charge on request. Hard copies of the consultation materials are also available free of charge on request. If you would like to request copies of the consultation materials please contact the project team by using one of the contact methods set out in this letter.

Consultation materials provided during the Initial Statutory Consultation in June/July 2023, including the PEIR, and during the Autumn Consultation are available on the project website at www.outerdowsing.com/.

 Development Manager
 Outer Dowsing Offshore Wind

SECTION 48, PLANNING ACT 2008

REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009

NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER TO CONSTRUCT, OPERATE, MAINTAIN, AND DECOMMISSION OUTER DOWSING OFFSHORE WIND

Notice was given in June 2023 that GTR4 Limited (trading as Outer Dowsing Offshore Wind) C/O Johnston Carmichael LLP Birchin Court, 20 Birchin Lane, London, England, EC3V 9DU ("the Applicant") intends to apply to the Secretary of State for a Development Consent Order ("DCO") under section 37 of the Planning Act 2008 for the construction, operation, maintenance, and decommissioning of Outer Dowsing Offshore Wind, an offshore wind generating station located approximately 54 km east of the Lincolnshire coastline in the southern north sea, together with associated development to connect the generating station to the national grid (the "Project").

Following the notice, the Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 in June and July 2023 ("Statutory Consultation").

In considering responses to the Statutory Consultation, through ongoing design development, and through the Offshore Transmission Network Review process, there have been a number of changes and refinements to the Project.

To ensure that all parties with an interest in the works and/or land are consulted on these changes to the Project, the Applicant is now undertaking further statutory consultation to ensure that any persons with an interest in such changes are duly consulted with (the "Further Statutory Consultation").

The proposed DCO would, among other things, license and authorise:

- Up to 100 offshore wind turbines and their foundations with a maximum tip height of 403m above lowest astronomical tide and a maximum rotor diameter of 340m;
- Up to two large or up to four small offshore transformer substations and their foundations within the array area;
- Up to one offshore accommodation platform and its foundations;
- Up to two offshore HVAC reactive compensation platforms and their foundations within the offshore cable route;
- A network of subsea cables connecting the wind turbines, offshore transformer substations and offshore accommodation platform;
- Up to four offshore subsea export cable circuits to bring electricity from the offshore transformer substations to landfall, located at Wolla Bank, south of Anderby Creek;
- Works at landfall to connect the offshore export cable circuits to the onshore cable circuits, crossing underneath the beach and including transition joint bays;
- Up to four underground cable circuits approximately 80 km in length, with joint bays, link boxes and/or earth pits, commencing at the landfall and running in a south westerly direction to an onshore substation in the vicinity of Surfleet Marsh/Weston Marsh;
- A new onshore substation in the vicinity of Surfleet Marsh/Weston Marsh;
- A connection into National Grid infrastructure including underground cable circuits with joint bays, link boxes and/or earth pits;

- Associated or ancillary works including archaeological and ground investigations, construction compounds, improvements and alterations to highways, verges and private access roads, construction of a temporary haul road, landscaping and drainage works;
- If required, compensatory measures in respect of the Inner Dowsing, Race Bank, and North Ridge Special Area of Conservation;
- If required, provision of offshore artificial nesting structure(s) as a compensatory measure for potential impacts in respect of special protection area(s);
- If required, the compulsory acquisition of land and/or the compulsory acquisition of permanent and/or temporary rights;
- If required, the temporary stopping up, alteration or diversion of streets;
- The application and/or disapplication of legislation including, among other things, legislation relating to compulsory purchase; and
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

The Project is an Environmental Impact Assessment ("EIA") development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the Project constitutes development for which an EIA is required and the proposed application for a DCO will be accompanied by an Environmental Statement. The Applicant prepared Preliminary Environmental Information for the purposes of the Statutory Consultation and an Environmental Update Report has been prepared to support this Further Statutory Consultation. The documents, plans and maps showing the nature and location of the Project can be accessed free of charge from Friday 20th October 2023 until Friday 24th November 2023 at the locations and times set out below.
