Dear Louise,

**Planning Act 2008 – Application for Development Consent  
GT R4 Limited, trading as Outer Dowsing Offshore Wind  
The Proposed Outer Dowsing Offshore Wind Farm Order  
Application Reference: EN010130**

GT R4 Limited, trading as Outer Dowsing Offshore Wind (the Applicant), encloses, in response to Section 51 Advice and other ongoing work, the documents detailed in the tables below.

Table 1 summarises

- (i) advice issued by the Planning Inspectorate on 16 April 2024 under section 51 of the Planning Act 2008,
- (ii) comments issued by the Planning Inspectorate on 16 April 2024 within the checklist completed under section 55 of the Planning Act 2008, and
- (iii) the Applicant's response to each.

Table 2 provides details of additional documents being submitted.

Table 3 provides a full list of the documents forming part of this submission, which is also reflected in the updated Guide to the Application (document 1.2).

In line with the recently issued Rule 17 letter, the Applicant confirms, as per question 25 (the Declaration) of the Application Form (APP-004), that to the best of the Applicant's knowledge the maps, plans and other documents, as far as they relate to the Application, are true. A disclaimer has not been included on documentation forming part of this submission and will not be included in future submissions.

If we can be of any further assistance, please contact Beth Travis ([REDACTED]) in the first instance.

Yours faithfully,

[REDACTED]

Development Manager  
Outer Dowsing Offshore Wind

Section 51 Advice	The Applicant's Response
<p><b>Wintering birds survey 2023-24</b></p> <p>It is understood the Applicant is currently undertaking a second season of wintering bird surveys, due to be completed in April 2024. A summary of the results to end of February 2024 is included as ES Appendix 22.7: Winter Bird Survey 2023-24 Preliminary Summary (Doc 6.3.22.7). ES Appendix 22.7 states the purpose of the preliminary summary is to compare the findings from season two with season one, to determine whether there have been material changes in target species distribution and abundance. It is confirmed in the Report to Inform Appropriate Assessment (RIAA) (Doc 7.1) at Table 4.2 that the second season surveys to date confirmed no change to predicted residual effects for those species utilising functionally linked land, specifically dark-bellied brent goose, pink-footed goose, lapwing, golden plover and curlew.</p> <p>The Applicant is requested to provide the results of the complete survey information, together with confirmation of any implications for, or updates to the Environmental Statement and/or Habitats Regulations Assessment.</p>	<p>The Applicant has provided an additional submission, Chapter 22 Appendix 3 Addendum: Winter Bird Survey 2023-24, which provides the second season of wintering bird surveys (Doc 13.2).</p> <p>The Applicant has provided an updated Report to Inform Appropriate Assessment (RIAA) (Doc 7.1) to reflect this additional survey information.</p> <p>For clarity, no changes have been made to Chapter 22 Onshore Ornithology (Doc 6.1.22) because there are no changes to the assessment conclusions.</p>
<p><b>Consultees identified on a precautionary basis</b></p> <p>The Planning Inspectorate identified additional parties on a precautionary interpretation of The Infrastructure</p>	<p>The Applicant has provided an updated Consultation Report Appendix 4B Section 42 Responses (Doc 5.1.4B) to incorporate the response from The Canal and River Trust who had been consulted, but their response was omitted from the report in error.</p>

Section 51 Advice	The Applicant's Response

Table 2 Additional documents submitted alongside the Response to Section 51 Advice Documents

Document Reference	The Applicant update
The Applicant’s Response to Section 51 Advice Covering Letter (Doc 12.1)	The Applicant has provided this Cover Letter.
Guide to the Application (Doc 1.2)	The Applicant has provided an updated version of Guide to the Application v2 (Doc 1.2) to incorporate the updates as a result of this submission.
Schedule of changes for Plans (Doc 2.0)	The Applicant has provided a Schedule of changes for Plans (Doc 2.0) to present a detailed overview of every change made to each Plan.
All Plans (Doc 2.1 to 2.20, inclusive)	<p>The Applicant updated all plans (Doc 2.1 to 2.20, inclusive) to reflect a change to the Mean High Water Springs and Mean Low Water Springs dataset that has recently been issued by Ordnance Survey MasterMap. The Applicant has also submitted the Applicant’s Approach to Ordnance Survey Mapping Update (Doc 13.3) which provides further details of how the Applicant has incorporated this dataset change within the Application.</p> <p>All onshore plans have also been updated to incorporate some minor refinements (reductions) to the Order Limits as a result of updated land plots. Plots have been removed where the Applicant deems that plots are no longer necessary for enabling accesses and Temporary Works Areas/Compounds. Full details of refinements are shown on the Schedule of changes for Plans (Doc 2.0).</p> <p>The refinements do not result in any changes to the assessment conclusions presented in the Application.</p>
Draft Development Consent Order (Doc 3.1)	The Applicant has provided an updated version of the Draft Development Consent Order (Doc 3.1) which incorporates changes to the Order Limits arising from updates to land plots and the change in the Mean High Water Springs and Mean Low Water Springs dataset.
Schedule of changes to the Draft Development Consent Order (Doc 3.1.1)	The Applicant has provided a Schedule of changes to the Draft Development Consent Order (Doc 3.1.1) to detail the changes made to the Draft DCO.

Document Reference	The Applicant update
Book of Reference (Doc 4.1)	The Applicant has provided an updated version of the Book of Reference (Doc 4.1) to remove the category 2 interest from plot 01-002 who, following further investigation by the Applicant, is understood to have no interest in the plot, and to reinstate plot 13-014 which was removed in error in the previous version of the Book of Reference (AS-006), but which was included and identified as land in the Book of Reference submitted with the application (APP-025).
Schedule of Changes to the Book of Reference (Doc 4.1.1)	The Applicant has provided a Schedule of changes to the Book of Reference (Doc 4.1.1) to detail the changes made to the Book of Reference.
Statement of Reasons (Doc 4.3)	<p>The Applicant has provided an updated version of the Statement of Reasons (Doc 3.3) to incorporate changes to the Order Limits arising from the updates to land plots and the change in the Mean High Water Springs and Mean Low Water Springs dataset.</p> <p>The Appendices outlining the status of negotiations with land interests and statutory undertakers have also been updated.</p>
Chapter 19 Onshore Air Quality (Doc 6.1.19)	The Applicant has provided an updated version of Chapter 19 Onshore Air Quality (Doc 6.1.19) to reflect recent updated guidance noting no material change to assessment conclusions.
Chapter 19 Appendix 1 Construction Dust Assessment Methodology (Doc 6.3.19.1)	The Applicant has provided an updated version of Chapter 19 Appendix 1 Construction Dust Assessment Methodology (Doc 6.3.19.1) to reflect recent updated guidance noting no material change to assessment conclusions.
Chapter 24 Appendix 2 Flood Risk Assessment: Onshore ECC and 400kV Cable Corridor (Doc 6.3.24.2)	In addition to the updates made in relation to the comments in the section 55 checklist, the Applicant has provided updates to address comments raised in the Environment Agency’s Relevant Representation.
Chapter 24 Appendix 3 Flood Risk Assessment: Onshore Substation (Doc 6.3.24.3)	In addition to the updates made in relation to the comments in the section 55 checklist, the Applicant has provided updates to address comments raised in the Environment Agency’s Relevant Representation.
Report to Inform Appropriate Assessment (Doc 7.1)	The Applicant has provided an updated Report to Inform Appropriate Assessment (RIAA) (Doc 7.1) to reflect the second season of wintering bird surveys for 2023-24. Furthermore, the updated version includes a correction to formatting of <i>Table 6.1: Mitigation of relevance to the RIAA</i> and other minor corrections.

Document Reference	The Applicant update
Offshore and Intertidal Ornithology Apportioning (Doc 7.1.1)	The Applicant has updated Offshore and Intertidal Ornithology Apportioning (Doc 7.1.1) to reflect corrected numbers due to a formatting inconsistency in <i>Annex A Breeding Season Apportioning Tables</i> .
Outline Landscape and Ecological Management Strategy (Doc 8.10)	The Applicant has provided an updated Outline Landscape and Ecological Management Strategy (Doc 8.10) to incorporate additional information provided in the second season of wintering bird surveys for 2023-24.
Applicant's Approach to Ordnance Survey Mapping Update (Doc 13.3)	The Applicant has provided this document to explain the change to the Mean High Water Springs and Mean Low Water Springs dataset that has recently been issued by Ordnance Survey MasterMap and how this has been captured within the Application.
