**Subject:** Outer Dowsing OWF - Examination - Request for a Principal Areas of Disagreement Statement - The UK Chamber of Shipping

You don't often get email from [REDACTED]

Dear Sir / Madam,

As stated within letter EN010130 dated 31 July 2024, the Planning Inspectorate request the Chamber of Shipping to submit a Principal Areas of Disagreement Statement with the applicant in relation to the Outer Dowsing Offshore Wind Farm.

This email is confirmation that the Chamber of Shipping does not see necessity in submitting a Principal Areas of Disagreement Statement due to the constructive nature of engagement with the applicant to date in relation to shipping and navigation receptors. The Chamber will however be submitting a Statement of Common Ground with the applicant at the appropriate deadlines.

Should you require anything further on the matter, please let me know.

To note, the Outer Dowsing project team have been copied into this correspondence.

Yours faithfully,  
Robert
