Subject: Outer Dowsing Offshore Wind (Generating Station) ISH 1
Date: 01 December 2024 21:46:26

Dear Sir / Madam

Your Ref: EN010130

Registration ID 20048306

We refer to the application for development consent in respect of the Outer Dowsing Offshore Wind (Generating Station).

Trinity House notes the Examining Authority's (ExA) invitation to ISH 1 on 4 December on the draft DCO.

Accordingly, in case it assists the ExA, Trinity House can confirm that it has discussed some potential changes to the draft DCO/DMLs with the applicant and the parties continue to engage positively in this regard. In addition, Trinity House understands that the applicant is considering these changes, on a without prejudice basis, and intends to submit a further iteration of the draft DCO / DMLs at **Deadline 3** (13 December).

Trinity House's position on the draft DCO/DMLs will, therefore, be more fully informed by the draft DCO submitted at **Deadline 3**.

As such, Trinity House will be better placed to comment more substantively on the draft DCO/DMLs, if necessary, after Deadline 3. On this basis Trinity House does not intend to make representations at ISH 1 or indeed plan to attend this particular hearing, if the ExA are agreeable.

Trinity House will, however, continue to monitor the Examination process as regards any specific written questions that may be directed to it by the ExA and will, of course, respond as appropriate should this be the case.

Regards

Russell
