

The current format is extremely difficult to follow and take part in. I feel as an objector to these proposals I am being unfairly treated and discriminated against.

This being 1 of 4 applications all of which are very close to each other and tracking the timing of the proposals ,etc is very confusing.

The hearing being in Lincoln is very prohibitive as it is out of the area of the schemes themselves, parking is poor and very expensive. There are venues closer to the scheme for ease of travel and parking.

Taking time off work is difficult as we are in the holiday season, so to engage in the process is very difficult.

Not all my own words but a true statement I wholeheartedly agree with.
