

Submission ID: 17689

The project as described will no doubt have a negative impact upon the community, environment, housing price and emotional welfare of the population of gate burton. The above will not only be increased during the build phase but also have a significant impact for years thereafter. The village of Gate Burton holds an important heritage that will be lost forever. This cannot be underestimated. This is the lifes of people, wildlife and identity of the community that will be affected for generations thereafter
