

Submission ID: 17720

None of you care about any of us in our communities that will be affected, none of you care about how all of this will affect people's mental health, we chose to live in this beautiful area none of us chose to live in a city otherwise we would be there!

All these solar companies they only care about money!!!

You all treat us like we don't know anything about solar!!!

We will all fight you, none of us are just going to sit back and watch you all destroy our beautiful area that we all live in!!!!!!!
