

I am strongly opposed to the ruination of the countryside with these dreadful proposals. The impact on population health will be incalculable. My own mental health is suffering massively with the stress I have experienced over the last year. I am anxious and chronically depressed about the four schemes proposed in West Lindsey. One (Tillbridge) abuts our property and I am particularly anxious of the impact the noise will have on our [REDACTED] daughter. We would have to move if these schemes go ahead but our house would yield only half its current market value. Agricultural land is a precious commodity. These solar schemes mean a loss of this resource, will blight the landscape and ruin thousands of peoples' lives.
