Dear Sirs,

Marston and Gate Burton Parish Council finds it unacceptable that both the West Burton and the Cottam Solar Project examinations appear to be running concurrently.

We are a small parish council, operating on a volunteer basis with some of our members also working in full time employment. The timing of these examinations make it very difficult to make representations to these hearings considering the multiple applications being made in this area, all of which are being brought forward as single issues.

If these proposed developments are to be considered separately, may we suggest a time gap of 6 months. After all, if they are available to be examined now, why can they not be included as one?

Yours faithfully

Gillian Martin,

Clerk, Marston and Gate Burton Parish Council
