Also made some comments. I'm is there anything for the restaurant stage?

00:44:18:08 - 00:44:25:08

Thank you. So I'm a Skelton resident. I just feel what

00:44:27:00 - 00:44:32:20

the cops in West Gate Road projects being Ballroom from the

00:44:37:13 - 00:44:53:13

You know at least give a deadline and call safety weeks route than consecutive day. He's having three so deadlines for three projects in one week.

00:45:04:10 - 00:45:36:03

Internal procedural climates in terms of getting them to sitting out of the race. Does anybody else know anything about the timetable the stage?

00:45:40:20 - 00:46:18:05

Good afternoon. Call eclair Broderick at the reason I'm speaking is that I'm advising across the number of the project. So that includes project on these two projects and some of the others that we mentioned. It is fair to say call Jake still coming.

00:46:18:07 - 00:46:35:18

Everybody else in this room have been living and breathing the various at time tables today and the revolution of the projects and nothing comes as a surprise. It didn't come as a surprise at the first attempt.

00:46:40:20 - 00:47:12:13

Of the time it is quite excluding rate that one particular local Authority hasn't yet prepared. It's a local impact reports and taking it to commit there was no need to wait for the rule six-letter. There's been plenty of warnings about the report and indeed the local authorities have been saying at meetings around this year the pressure that they were on the as the year unfolds because the feather week I would loan the more actions are required.

00:47:12:15 - 00:47:51:13

I meet her. Today already as well and that there are other projects coming forward and frankly. I need to buy any pushing beyond the deadlines already out not only makes matters worse because there are other projects coming along so it becomes more and more and more congested and they'll be more and more and more requests to move deadlines. We should also bear in mind that the local residents group is welcome to this project has already been hailed as a significant media social media local politicians are commenting on it.

00:47:59:05 - 00:48:05:18

They are more than capable of sharing comments on the projects. We've seen that already across all of them.

00:48:07:05 - 00:48:44:23

Representations resubmitted as each project comes alongside the point to make is that whilst you may have pleased at all well wishes and separate projects. And of course, you have to treat it as stop there is the coordination and there is the evidence already tonight that the deadlines can be met. The comments have been made and cold and ice it and not just now but through a national device detection group to come paint Alliance boasts that its its objectives of the 87 solar projects or something like that across the country.

00:48:45:00 - 00:49:01:03

So there is a network of support for the objection groups that are appearing before the various examinations. So I would plead with you to stick to the dates that you thought because frankly that lightly sweat further if we can go further along.

00:49:07:03 - 00:49:58:08

All the impacts associated with these projects and the issues and submissions that been raised before you to die. But we have heard them before they only get worse if the deadline is allowed to slip saying that the committee made that record is it essentially a draft report offices use if you like that to the examination and circulated around the subject to The Keg happy hour at the party subject.

00:50:01:23 - 00:50:40:20

That way everybody gets onto these submissions and local impacts from a technical officer perspective. And then if members of the relevant their views are obviously important as the elected if that's what you will know who comes at that's being undertaken for several exits before now over the years that the process has been running and it's normally seen is not participating dolphin that has a solution to this one.

00:50:40:22 - 00:51:09:13

Thank you very much. And yes, we went we all love you all and we recognize that. The combination is definitely congested environments and we will be doing our best to make sure it progresses. I'm now in a short. I'm very responsible.

00:51:18:15 - 00:51:21:10

I don't know. What do you want to come back and responds to that?

00:51:25:10 - 00:52:04:03

We'll see. Public publishing draft changes United States.

00:52:11:03 - 00:52:14:08

So we could have called that. For your mom.

00:52:18:20 - 00:53:08:15

Just help signing order has been the local authority to achieve things earlier than than 1 week. Maybe the standard for running applications. But where we are in the program for nationally significant infrastructure project up and down the country has managed to achieve that so I see no reason why that can't be achieved now particularly given the extra amount of time that the local Authority has had tonight to get ready for this particular deadline.

00:53:09:13 - 00:53:10:03

Thank you.

00:53:12:13 - 00:53:13:15
directions to Phillips

00:53:32:05 - 00:53:36:13
All right, and he said the comments from people in the room.

00:53:39:13 - 00:54:24:00
Capital One points in relation to the dates for the earrings in January for the laptop mentions the week commencing 22nd January and we have school today for pennies for that week and we do you have the sweetest identity. I just think it sounds we did look at the following week for dates.
