**Subject:** West Burton

Good evening, Louise.

Following the meeting in Lincoln. I have now sent me objections in writing. I hope they will be ok.

If you need more information, please don't hesitate to contact me.

I am written this as I am going to another meeting about the battery packs which Bassetlaw planning department have recommended, are passed. It is going to a planning committee.

I find it difficult to understand that the planning inspectorate is involved and yet one piece of the project can be passed by the local planning department.

It seems there are so many projects that we are not sure who is doing what.

I ask once again that the planning inspectorate please come and walk the lands around West Burton Power Station before any decision is made?

I was also reading about the fusion which was passed at West Burton. Will this not make the amount of energy we need rather than filling our agricultural land with panels?

We are a community in Sturton Le Steeple which will be destroyed if all the projects in are area are passed.

The land was purchased 2 years ago by a new landowner and since we have had nothing but projects to stop us being a village.

We live in the country because we want to, this will be like living on the A1.

Kind Regards

Christine Warren
