**Subject:** Question 1.4.1 planning gained for a new farm yard.  
**Date:** 07 January 2024 18:59:34

---

You don't often get email from [REDACTED]@btinternet.com. [Learn why this is important](#)

Hill Agriculture is a first generation farm that has invested heavily in 23 acres at nearby Fenton and bought 15 acres at Marton by auction where we live. We had no prior knowledge of cable routes, nothing showed on the land search or the legal pack. Our agricultural business is operating. We desperately need a farm yard to carry out and grow our business we gained planning permission for two agricultural buildings an entrance and yard this will get us started although to make our business work we will definitely need to expand and put more buildings up ect if not our business will fail. West Burton, cottam, Gate Burton energy park and Tillbridge are all proposing putting cables where our new farm yard has gained planning permission it will simply not be possible to expand our agricultural business. Is it not a human right for us Hill Agriculture to make a living and not go out of business because of these schemes.

Yours Mr Nicholas Hill and Emma Hill are proud owners of Hill Agriculture.
