							<p>confirmed receipt of these following an on-site meeting to discuss the Scheme's requirements. Negotiations are ongoing. Mr and Mrs Hill have requested further information on cable route layouts, which is currently being prepared by the Applicant. This is because the proposed cable route runs across an area where the landowner recently obtained planning permission for agricultural barns. A technical solution is being drawn up by the Applicant to confirm whether the barns and cable can coexist. A meeting took place on 23 October 2023.</p> <p>Deadline 1 update: Discussions are ongoing but the landowner is currently refusing to negotiate on an easement and has suggested a subsoil lease or wayleave with increased commercial values may be acceptable. The Applicant is considering this request. The Applicant has carried out a review of the route optioneering in</p>

No options have been identified that would avoid the need to seek compulsory acquisition and no options performed better in environmental terms than the existing route alignment. Most alternative options would affect more landowners in total, many of whom were not willing to enter into negotiations.</p> <p>Deadline 2 update: Discussions are ongoing. The Applicant notes that in the Compulsory Acquisition Hearing held on the 7 December 2023 for the Cottam Solar Project, it was suggested to the landowner’s representative that Mr and Mrs Hill appoint a land agent or solicitor as impartial advice may be helpful to them, particularly relating to the process. The reasonable costs for obtaining such</p>

An internal valuation report has been completed to ascertain the value of the land. An independent third-party valuation of the land will be undertaken as the commercial point of value by landowner and Applicant are very far apart. The Applicant is hopeful that the landowner will accept the valuation figure to progress the signing of the Heads of Terms.</p>
