Article 11 – Temporary prohibition or restriction of use of streets and public rights of way	Applicant	Amendments reflect changes made to the Cottam Solar Project Order. The amendments avoid using the term ‘stopping up’ in respect of temporary prohibitions and restrictions, to avoid confusion with the permanent nature of stopping up under highways law. These changes were requested by the Examining Authority on Cottam and also reflect drafting changes in other made DCOs.	<p>Temporary stopping up prohibition or restriction of use of streets and public rights of way</p> <p>11.—(1) The undertaker, during and for the purposes of constructing or maintaining the authorised development, may temporarily stop up, prohibit the use of, restrict the use of, authorise the use of, alter or divert any street or public right of way and may for any reasonable time—</p> <p>(a) divert the traffic or a class of traffic from the street or public right of way;</p> <p>(b) authorise the use of motor vehicles on classes of public rights of way where, notwithstanding the provisions of this article, there is otherwise no public right to use motor vehicles; and</p> <p>(c) subject to paragraph (2), prevent all persons from passing along the street or public right of way.</p> <p>(2) The undertaker must provide reasonable access for pedestrians going to or from premises abutting a street or public right of way affected by the temporary stopping up, prohibition, restriction, alteration or diversion of a street or public right of way under this article if there would otherwise be no such access.</p> <p>(3) Without prejudice to the generality of paragraph (1), the undertaker may temporarily stop up, prohibit the use of, authorise the use of, restrict the use of, alter or divert—</p> <p>(a) the streets specified in column 2 of the table in Part 1 (temporary prohibition or restriction of the use of streets to be temporarily stopped up) of Schedule 6 (streets and public rights of way) to the extent specified in column 3 of that table;</p> <p>(b) the public rights of way specified in column 2 of the table in Part 2 (temporary prohibition or restriction of public rights of way to be temporarily stopped up and diverted with diversion) of Schedule 6 (streets and public rights of way) to the extent specified in column 3 of that table; and</p> <p>(c) the public rights of way specified in column 2 of the table in Part 3 (temporary prohibition or restriction of public rights of way to be temporarily stopped up) of Schedule 6 (streets and public rights of way) to the extent specified in column 3 of that table; and and</p> <p>(4) The undertaker must not temporarily stop up, prohibit the use of, authorise the use of, restrict the use of, alter or divert—</p> <p>(a) any street or public right of way specified in paragraph (3) without first consulting the street authority; and</p> <p>(b) any other street or public right of way without the consent of the street authority, and the street authority may attach reasonable conditions to any such consent.</p> <p>(5) Any person who suffers loss by the suspension of any street or private right of way under this article is entitled to compensation to be determined, in case of dispute, under Part 1 (determination of questions of disputed compensation) of the 1961 Act.</p> <p>(6) Without prejudice to the scope of paragraph (1), the undertaker may use any street or public right of way the use of which has been temporarily stopped up prohibited, restricted, altered or diverted under the powers conferred by this article and within the Order limits as a temporary working site.</p> <p>(7) In this article expressions used both in this article and in the 1984 Act have the same meaning as in that Act.</p>	A
