We do object

We are first generation farmers that have gained planning permission for our new farm yard the accumulative amount of cables routed through our land Gate Burton solar ,west Burton,cotton and Tillbridge will have a devastating impact on our agricultural business and new farm yard Hill Agriculture will simply not be able to develop our new business and farm yard and ultimately this could put us out business Hill agriculture cannot stress enough how this will affect us surly it is a human right that our business continues to support our family .
