1 Introduction

1.1 Background

- 1.1.1 West Burton Solar Project Limited (the Applicant) submitted an application to the Secretary of State on 21 March 2023 (the Application). The Application was accepted for Examination on 18 April 2023. The Examination of the Application commenced on 8 November 2023.
- 1.1.2 This document should be read in conjunction with the **Book of Reference [EN010132/EX6/WB4.3_F]**, **Land Plan [EN010132/EX6/WB2.2_D]**, the **Statement of Reasons [EN010132/EX6/WB4.1_C]** and the **Draft DCO [EN010132/EX6/WB3.1_G]**.
- 1.1.3 The **Book of Reference [EN010132/EX6/WB4.3_F]** includes details of the interests belonging to the statutory undertakers listed in this document that are within the Order limits or affected by the Scheme. Further information on how the Scheme will impact on interests belonging to statutory undertakers is set out in the **Statement of Reasons [REP4-028]**.
- 1.1.4 This document provides an update on the status of negotiations with statutory undertakers, and with other utility providers, included within the **Book of Reference [EN010132/EX6/WB4.3_F]**.
- 1.1.5 Section 10.3 of the **Statement of Reasons [REP4-028]** sets out the tests in section 127 of the Planning Act 2008. In summary, where a representation has been made by a statutory undertaker objecting to the acquisition of statutory undertakers' land (or rights over land), the Secretary of State must be satisfied that the land or right can be replaced or rights can be acquired without any serious detriment to the carrying on of the undertaking.
- 1.1.6 The Applicant's position is that the protective provisions contained in Schedule 16 of the **Draft DCO [EN010132/EX6/WB3.1_G]** are adequate to protect each statutory undertaker's undertaking and to ensure that it suffers no serious detriment. Therefore, in the event that any representations made by statutory undertakers remain outstanding at the end of the Examination, the Secretary of State can be satisfied that the tests set out in section 127 of the Planning Act 2008 have been met.
- 1.1.7 The table below includes each statutory undertaker of other utility and includes details of the affected plots together with the status of negotiations.

Draft protective provisions are almost in agreed form, and as such have been included in Part 18 of Schedule 16 to the draft DCO [EX4/WB3.1_E].</p> <p>Deadline 6 update:</p> <p>The protective provisions are in an agreed form with the exception of the restriction on the use of compulsory acquisition powers.</p> <p>Discussions are ongoing with EDF regarding the voluntary property agreements. As detailed in WB8.1.13_C Schedule of Negotiations Revision C [EX4/WB8.1.13C], the commercial values requested by EDF are much higher than those offered by the Applicant. Whilst discussions are ongoing, the Applicant and EDF have not yet agreed the terms of a voluntary property agreement for the necessary rights to construct, use and maintain the grid connection across EDF's land. In the absence of voluntary agreement, any restriction on the use</p>

As the protective provisions require the technical details to be approved by EDF prior to carrying out any works that may affect EDF's apparatus, the Applicant's position is that the use of compulsory acquisition powers will not result in any serious detriment to EDF's undertaking.</p>

			<p>In the absence of voluntary agreement with the current landowner, EDF, any restriction on the use of the compulsory acquisition powers would result in a material impediment to the delivery of the Scheme. As the protective provisions require the technical details to be approved by UKAEA prior to carrying out any works that may affect UKAEA's future development proposals, the Applicant's position is that the use of compulsory acquisition powers will not result in any serious detriment to UKAEA.</p> <p>The Applicant and UKAEA are in discussions in respect of a separate side agreement to address the concerns raised by UKAEA.</p>
