Subject: RE: UKAEA objection to Compulsory Acquisition powers

Categories: Deadline 7

Dear Louise,

Further to the UKAEA's written and oral submissions relating to the updated schedule of CPOs for the West Burton Solar Project, and by way of an update which we committed to send to the Inspectors today, please could you forward the following comments on to the Inspectors:

The UKAEA has previously made submissions objecting to the compulsory acquisition of rights over land over which it has the benefit of an option at West Burton [REP5-005 and AS-066]. On account of assurances received from the Applicant West Burton Solar, and its agreement to the incorporation of the protective provisions substantially in the form sought by UKAEA [see AS-066], the UKAEA withdraws its objection to such powers. The Applicant is providing an update to the ExA with the form of protective provisions agreed by the parties, reflecting ongoing discussions since the last deadline.

Thank you, and kind regards,
Peter
