C	21 November 2023	AV	BR
D (Change)	8 December 2023	AV	BR
E	19 December 2023	AV	BR

1 Introduction

- 1.1.1 This document provides a guide to the Development Consent Order (DCO) application for Cottam Solar Project (The Scheme). The Application is made by Cottam Solar Project Limited (the Applicant) to the Secretary of State for Business, Energy and Industrial Strategy (the Secretary of State) pursuant to the Planning Act 2008 (PA 2008).
- 1.1.2 The Applicant is seeking a DCO for the construction, operation (including maintenance), and decommissioning of ground mounted solar photovoltaic (PV) panel arrays, a Battery Energy Storage System (BESS) and supporting infrastructure (the Scheme). The Application is required because the Scheme is classified as a Nationally Significant Infrastructure Project (NSIP) under the PA 2008.
- 1.1.3 This Guide provides an overview of the documents that have been submitted in order to satisfy the APFP Regulations, the EIA Regulations and section 37 of the PA 2008.

2 Document Referencing

- 2.1.1 Each document that forms part of this Application and subsequent stages of the DCO process, has been assigned a reference number that will allow it to be located within the Application document library. When an Application document refers to another document, then the full reference information is provided, highlighted with bold. This comprises the PINS reference ('EN010133'), followed by an indication that the document forms part of the Application ('APP') and then the specific document number (for example, 'C6.2.2'); this produces a full reference in the format [EN010133/APP/C6.2.2].
- 2.1.2 In order to aid navigation within Appendices of the Landscape and Visual Impact Assessment Chapter of the Environmental Statement [EN010133/APP/C6.3.8.1-C6.3.8.5], this referencing system has been extended within the documents with the use of sub-references, allowing direct references to specific sections.
- 2.1.3 Revision suffixes have been attached to documents which, since submission on 12 January 2023, have been revised and resubmitted to the Planning Inspectorate. This updated Guide, for example, is referenced as '[EN010133/EX1/C1.3_B]' which reflects the Guide's second revision since submission on 12 January 2023.
- 2.1.4 Additionally, submissions to the Planning Inspectorate post 12 January 2023 carry a 'deadline indicator' to detail by which deadline the document was submitted to the Planning Inspectorate. All documents submitted to the Planning Inspectorate 12 January 2023 carry '/APP/' within their unique reference. Those new submissions made to the Planning Inspectorate post-submission and during the pre-examination stage carry '/PEX/' instead of '/APP/' within the reference to reflect the submission being made during the pre-examination stage. New submissions made during the examination stage will carry '/EX1/', '/EX2/', '/EX3/' etc. depending by which examination deadline the submission of the new document is made.

2.1.5 Submissions relating to the Change Application submitted on 8 December 2023 are prefixed with "/CR1/'. Until the Change Application is accepted, these versions will be marked in red with '(Change Application)', alongside the versions relating to the main application. If the Change Application is accepted, the Change versions will supersede previous versions and the Guide will be updated to indicate this at a subsequent deadline.

3 Master document list

3.1.1 The master document table, provided on the following page at Table 2.1; offers a full list of all documents submitted to date, indicating either the latest version (if applicable) or when a new document was submitted. These documents have been grouped and colour-coded in the master document table by volume as follows;

Volume	
Application Information	Provides details of the specific application information required by the Planning Inspectorate
Plans and Drawings	Contains the plans which show the extent of the Scheme and where we propose to undertake the works
Draft Development Consent Order	Outlines the legal powers we are seeking from the Government Secretary of State to build the proposed connection Scheme
Compulsory Acquisition Information	Provides evidence of why we may require legal powers of compulsory acquisition
Consultation Report	Provides details of the pre-application consultation that we have undertaken for the Scheme
Environmental Statement	A document which shows how we assessed the likely significant impacts on the environment, in accordance with the EIA Regulations and associated guidance
Environmental Statement Appendices	The Appendices associated with the likely significant impacts to the Environmental Statement providing

	further information on the likely significant effects of the Scheme
Environment Statement Figures	The Figures to the Environmental Statement providing further information on the likely significant effects of the Scheme associated with the likely significant impacts
Other documents	Includes additional documents produced for the application submission Application
Examination Submissions	Documents submitted post Acceptance of the Scheme by PINS for examination
Change Application Submissions	Documents submitted in relation to the Change Application
