

Apart from the threat to food security of the whole, huge proposal, the loss of land for health-giving outdoor exercise would be devastating. mental health is greatly improved by closeness to nature, an effect not replicated by gm exercise.

UK has some of the POOREST BIODIVERSITY in the world.

This route must not be allowed to erode it any further, just for greed, when there are viable alternatives.

Badgers are protected animals..a fact which would not make any difference to the ignorant, ruthless approach used by Cottam, who have shown blatant disregard in other areas (our farm), for the findings of the 'wildlife survey'. This assured us that our conservation efforts were so successful that they would not be spoilt...not honoured.
